

PIC acts instantly as soon as it is lit. PIC helps to repel mosquitoes in confined outdoor areas. It is useful in places where there is little or no breeze, such as patios and porches.

DIRECTIONS

- 1 Bend the enclosed P.C. holder into an upright position.
- 2 Hold the comma-shaped end of one of the coils between two fingers as shown in the illustration. Shake lightly over the palm of the other hand, and it will be easily separated.
- 3 Insert the upright tip of the holder into the hole at the center of the coil.
- 4 Light outer end of coil. When using extra holder place the lighter coil on a dish or other suitable receptacle.
- 5 Any broken piece of the P.C. coil may be used by inserting it into the open gap in the holder as illustrated.

CAUTION: KEEP OUT OF REACH OF CHILDREN. DO NOT USE IN BATHROOMS OR KITCHENS. ALWAYS USE WITH CARE.

PIC PERSONAL BODY

SPRAY is the ideal anti-insect spray for "People on the Go." Perfect for the outdoorsman, sportsman, in fact, all people on the go! It is completely odorless, non-greasy, non-sticky, stainless, perspiration resistant.

PIC SPRAY is the only **NON-FLAMMABLE** spray of its kind on the market today! Just spray it on your body and get protection against insects for hours!
