

PIC ANT CONTROL SYSTEMS® has been the effective method for destroying ants for years. The bait is in four child resistant containers. It is effective and easy to use.

PRECAUTIONARY STATEMENT — Harmful if the content from inside of this ant cup are swallowed. Wash thoroughly with soap and water after handling the ant cups.
CAUTION: Keep out of reach of children and domestic animals.

FIRST AID:

IF SWALLOWED: Call a Poison Control Center or Doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the Poison Control Center or Doctor. Do not give anything by mouth to an unconscious person.
IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses if present, after the first 5 minutes, then continuing rinsing eye. Call a Poison Control Center for treatment advice.
IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a Poison Control Center or Doctor for treatment advice. Have the product container or label with you when calling a Poison Control Center or Doctor or going for treatment.

DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

1. Separate Bait Trays.
2. Remove all sources of food such as crumbs, sugar, and grease spots.
3. Place under sinks—refrigerator—cupboard.
4. Place by ant trails where ants are numerous.
5. For Garden & Lawn: Place along trails & ant colonies. Put traps 10-20 ft. apart. In 3-7 days ants will be killed. Replace with new traps every 30 days. Avoid contamination of feed and foodstuff.

STORAGE AND DISPOSAL STATEMENT:

STORAGE—Store in original container away from food and feedstuffs. Keep product in a locked storage area inaccessible to children and pets.
DISPOSAL—Do not reuse empty container. Securely wrap in newspaper and discard in trash.

HOW THE SYSTEM WORKS: The ants you see are worker food providers to the Queen Mother and the larvae residing in the nest. The worker ants feed the colony and then themselves. Thus, the entire colony is destroyed.
