DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

GENERAL

Use Residual Spray PI-C Ant, Roach & Spider Killer for spot or crack and crevice treatment. Use for ants, roaches, waterbugs, silverfish, ticks, fleas, and spiders. See directions below. Apply this product to areas where insects are found or may be found. Repeat treatments may be necessary if needed.

FOR SPOT TREATMENT

To Kill Ants, Cockroaches, Crickets, Silverfish, Spiders, Sawdust, and Carpet Beetles:

Spray areas where insects are found, including dark corners, under sinks, in wall spaces, behind baseboards, behind and under doors, under cabinets and appliances, under refrigerator installations, near drains, and in other areas.

Sprayed directly on the insects. Apply to doors and window sills where insects enter. Repeat as necessary.

To Kill Brown Dog Ticks and Fleas:

Spot treatment of kennels, quarters, and animal houses. Spray baseboards, window sills, and floor and the edges of walls where present. Use bed bug mattress treatment near these spots. Repeat treatments with this product.

CRACK AND CREVICE

To Kill Ants, Cockroaches, Crickets, Silverfish, Sawdust, and Brown Dog Ticks, Fleas, and Carpet Beetles:

Use small amount of product in cracks and crevices. Apply to equipment, under baseboards, and in points between pipes, walls, and equipment and floor. Repeat treatments in spaces if warranted. Repeat treatments if listed insects recur.

Do not use in areas where food is stored, prepared, or consumed. Do not use in areas where food is stored, prepared, or consumed.

Fleas and Mosquitoes

Indoors, use in areas where fleas and mosquitoes are found. Spray surfaces of walls, ceiling, and floor where they are found. Use in areas where they are found. Repeat treatments if needed.

Do not use in areas where food is stored, prepared, or consumed. Do not use in areas where food is stored, prepared, or consumed.
