## PIC ROACH CONTROL III

*An effective system for killing roaches - Kills the eggs they carry and does it fast!!*

### DIRECTIONS FOR USE:

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

- Remove all visible food, crumbs where roaches have been seen.
- This large bait station is especially designed for large roaches, palmetto bugs and large water bugs. Large bugs usually live outdoors and enter the home seeking water and food. Thus, placement should be near possible home entry points - doors, garage doors, and porches. The smaller type roaches are usually found in bathrooms, pantries and kitchens, especially near water pipes and refrigerators.
- Use all Bait Trays at one time for effective control. The greater number of Trays used - the more effective!!
- Use double faced tape inside package to mount some trays on walls of shelves. Place under sinks - refrigerator - stove, in pantry and wherever roaches are seen - and as suggested in sketch.
- Use 4 - 6 trays in room where heavy infestation exists.
- For maximum results replace Bait Trays every 2-3 months.

### PRECAUTIONARY STATEMENTS:

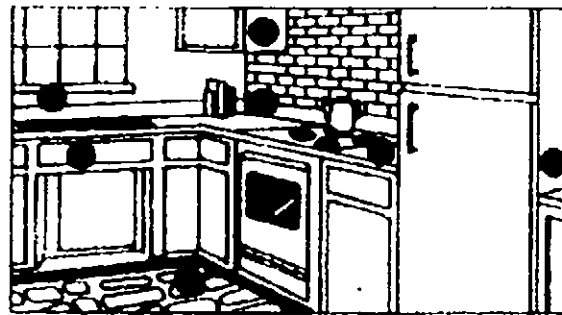

Hazardous to Humans and Domestic Animals  
CAUTION: Harmful if swallowed. Get immediate medical attention.

### STATEMENT OF PRACTICAL TREATMENT:

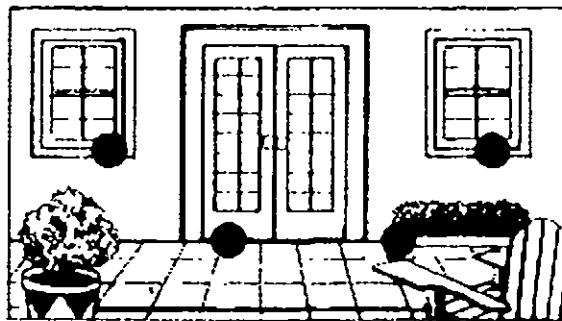

- |               |                                                                                                     |
|---------------|-----------------------------------------------------------------------------------------------------|
| If Swallowed: | Drink 1 or 2 glasses of water and induce vomiting by sticking finger down throat. Call a physician. |
| If in Eyes:   | Rush with plenty of water.                                                                          |
| If on Skin:   | Wash thoroughly with soap and water.                                                                |

DISPOSAL: Keep Bait Trays and place in trash cans.

STORAGE: Place in cool place away from children.

Suggested Tray Placement •

EPA Reg. 3095-64 EPA Est. 3095 NJ-1

**Satisfaction or Refund.** Should "PIC Roach Control Systems" not reduce the roach population, return the 8 trays plus your sales slip for refund.
