BORIC ACID ROACH KILLER GEL

PRECAUTIONARY STATEMENTS: Hazardous to Humans and Domestic Animals.

CAUTION: Harmful if swallowed or absorbed through skin. Causes eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and with water after handling.

STATEMENT OF PRACTICAL TREATMENT:

IF SWALLOWED: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. If person is unconscious, do not give anything by mouth and do not induce vomiting.

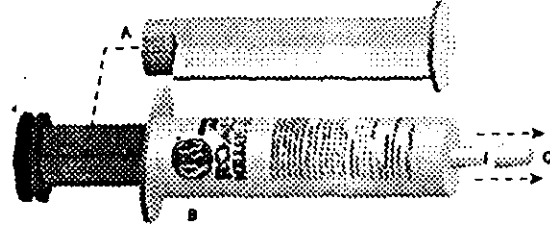

IF IN EYES: Flush eyes with plenty of water. Call a physician if irritation persists.

IF ON SKIN: Wash with plenty of soap and water. Get medical attention.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

To Control Roaches—Domestic Use: Apply the gel amply behind and under the following: Stoves, refrigerators, dishwashers, sinks, washing machines, tubs, water pipes, drains, sewers, man holes, electrical conduits, cracks and crevices of baseboards, in corners of cupboards, cabinets and closets. Remove drawers from chests and cabinets, apply freely into corners of drawer wells. Reapply every two or three months. All visible gel should be packed into cracks and crevices. Remove excess gel and dispose into garbage. Be sure not to apply in areas accessible to children and pets. Avoid contamination of feed and food stuff.

To Control Roaches—Crack And Crevice treatment: In food and feed stuff establishments: Application is limited to crack and crevices treatment only in areas where food and feed stuff are received, stored, prepared, packaged (canning—boxing or wrapping) or served: care must be taken to avoid depositing this product on serving surface where food and feed stuff are processed. Use this product only in cracks and crevices in food handling establishments.

Insert Plunger (A) into the tube (B). Gently push the plunger into the tube (DO NOT REMOVE the clear "piston" already inside of the tube). You will hear a "SNAP". This is the plunger hooking onto the clear piston. Remove the Protective end cap (C), slowly push in the plunger to release gel contents.

Serving Areas: In Dining Rooms, apply into cracks or crevices such as baseboards and floor cracks. Avoid areas likely to be contacted by food.

Non Food Areas: Apply to crack and crevices and around water pipes in areas such as garbage rooms, locker rooms, mop closets, boiler rooms, and lavatories.

STORAGE AND DISPOSAL: Store in a cool, dry place inaccessible to children and pets. Do not reuse container. When empty wrap in newspaper and dispose in trash. Do not contaminate water or food or feed stuff.

Spanish instructions located inside product.
