ACTIVE INGREDIENT: ...
(Name expressed as available ...)
OTHER INGREDIENTS:

AVOID BREATHING DUST - MAY CAUSE IRRITATION TO NOSE AND THROAT

OBSERVE THE FOLLOWING USE PRECAUTIONS: The Federal Food and Drug Administration has set official tolerances for certain pesticide residues. In order that residues on food and forage crops will not exceed established tolerances, use only at recommended rates, and do not apply closer to harvest than specified.

This product will kill fish and wild life. Keep out of ...
of water. Apply this product only as specified ...
of this label. Do not apply when weather conditions favor
drift of dust from areas treated. Rinse equipment and
container and dispose of wastes by burying in non-crop
lands away from water supplies. Container should be
disposed by puncturing holes in them and burying with wastes
(e.g., in a hole, deep out of water).

APPLICATION FOR USE: This dust should be applied when air is calm ...
to give effective results, a good hard or power dusting machine
should be used to insure complete coverage with a light film of dust.
Applications should be made prior to periods of infection and repeated
at regular intervals as needed. Apply at rate of 30 to 40 pounds
per acre, depending on plant size.

Contact your county agent, state entomologist or periodic visitor ...
for complete details on the use of this product in your local conditions.

This product will kill fish and wildlife. Keep out of any body of water. Apply this product only as specified on this label. Do not apply when weather conditions favor drift of dust from areas treated. Rinse equipment and container and dispose of wastes by burying in non-crop lands away from water supplies. Container should be disposed by puncturing holes in them and burying with wastes (keep out of water).

DO NOT USE: This dust should be applied when air is calm. Do not use in windy conditions. A good hand or power dusting machine should be used to secure complete coverage with a light film of dust. Do not use on crops until the danger of infection and injury to crops has been eliminated. Apply at rate of 50 to 40 pounds per acre depending on plant size.

Do not use in your county agency, State Agricultural Experiment Station or other county extension service for complete details on the correct application program for your local conditions.

RECOMMENDATIONS

DO NOT USE: Anthracnose, Downy Mildew, Rust - Do not apply within 7 days of harvest or feed of certain beans.
CANTALOUPE: Anthracnose, Downy Mildew, Rust - Do not apply within 7 days of harvest.
