IMPORTANT: Read these directions carefully before using this product. See the Statement of Warranty and Limitation of Damages provision on the back of this container.

CONDITIONS OF USE: These directions are based on laboratory tests of effectiveness, of bait activity, and of bait survival on or in food and feed under laboratory conditions. In a wide range of conditions under which the product is used, if the directions are followed, it is impossible to predict the results. The occurrence of abnormal conditions beyond the control of the Seller, and the Seller, and the Buyer assume, through their use, that the Buyer assumes all such risks.

DIPTEREX kills both resistant and non-resistant roaches and crickets. They are attracted to it, feed on it, and die.

READ LABEL DIRECTIONS CAREFULLY

TO CONTROL ROACHES IN STORES, PLANTS, PATIOS, PICNIC AREAS, ANIMAL HOSPITALS, GARDENS, AND KITCHENS:

Place a small quantity of dry bait in a shallow container with jar lids, and put in protected areas such as under sinks, behind refrigerators, out of reach of children and pets, and near food, but not near food, utensils, or drinking water. Let the bait sit for 24 hours before use.

TO CONTROL FLIES AND ROACHES IN STORES, PLANTS, PATIOS, PICNIC AREAS, ANIMAL HOSPITALS, GARDENS, AND KITCHENS:
THESE INSECTS ARE FOUND:

DIPTEREX can be used dry "as is" or mixed with bait. See directions below. Good sanitation is essential. Apply DIPTEREX daily until flies are controlled.

As a Dry Bait: Scatter lightly in small amounts on horizontal areas. If a success is not obtained, scatter that bait is barely visible. Apply directly to roach and cricket infestations. For faster kill, apply DIPTEREX to roach and cricket infestations scatter or drop on roach and cricket infestations. Keep out of reach of poultry.

As a Water Bait: For every 100 lbs. of water, add 2 cups of corn meal or 1 cup of flour. Scatter on floors, window sills, etc., at a distance of 10 feet from these buildings.

Wet Floor Application: For roach and cricket control (for roach and cricket control) use strips of cardboard or paper. First wet the strips, then apply DIPTEREX. Dissolve DIPTEREX in water to bring mixture to proper consistency.

DIPTEREX may be used on roach and cricket infestations in edible products areas of the plant. If roach and cricket infestations have ceased for the day, and bait is not used, roach and cricket infestations will not return.

3 (of 3)

DIPTEREX Sugar Bait

PRECAUTIONS

Do not apply directly to animals. Do not use on water, milk, or milk-handling equipment. Do not treat portions of barns, stables, or other areas where animals can lick. Direct applications to walls, floors, or other surfaces previously treated with lime, whitewash, or other alkaline material may be ineffective.

Keep bait and solution out of reach of children and pets.

CAUTION

May be harmful if swallowed. Wash thoroughly with soap and warm water after handling. Wash contaminated clothing with soap and hot water before reuse.

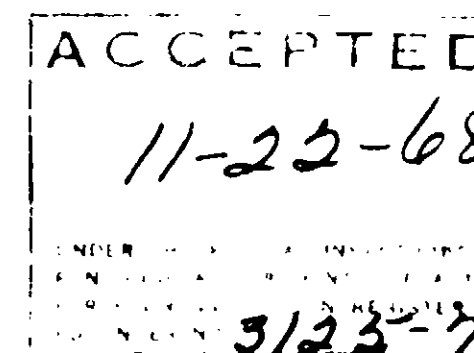

Do not contaminate feed or food.

If poisoning occurs, get prompt medical aid. Atropine sulfate is antidotal. 2-PAM is also antidotal and may be administered in conjunction with atropine.

WARRANTY AND LIMITATION OF DAMAGES

Chemagro Corporation warrants that this material conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use and Conditions of Sale; subject to the risks referred to therein. Chemagro Corporation makes no other express or implied warranty, including any other express or implied warranty of FITNESS or of MERCHANTABILITY, and no agent of Chemagro Corporation is authorized to do so except in writing, with a specific reference to this warranty. Any damages arising from a breach of this warranty shall be limited to direct damages, and shall not include consequential commercial damages such as loss of profits or values, etc.

DIPTEREX is Reg. TM in U.S. and Canadian Pat. Offs. by Farbenfabriken Bayer A.G., Chemagro Corporation licensee.
