

**DIRECTIONS FOR USE**

**IMPORTANT:** Read these entire Directions and Conditions of Sale, including the Warranty and Limitation of Damages provision, before using BAYTEX 5% Granular.

**CONDITIONS OF SALE:** These Directions for Use reflect the opinion of experts based on tests of effectiveness, of toxicity to plants and laboratory animals and of residues on or in food and feed under normal conditions of use. However, because of the wide range of conditions under which this product may be used, even though label directions are followed, it is impossible to eliminate all risks associated with its use because of abnormal conditions beyond the control of the seller. Chemagro Corporation and the Seller offer, and the Buyer accepts, this product subject to the understanding that the Buyer assumes all such risks.

BAYTEX 5% Granular is recommended for use wherever mosquitoes breed, except in water where shrimp, crabs, or crayfish are of value. BAYTEX 5% Granular should not be used on food crops. BAYTEX provides long residual control and is effective against DDT-resistant as well as non-resistant strains.

**MOSQUITO CONTROL ON ALFALFA AND PASTURE GRASS:** Applications may be made at a rate of 0.2 lb. active per acre. BAYTEX may be used once per cutting on alfalfa. BAYTEX 5% Granular may also be used up to 4 times per year on pasture grass without removal of grazing livestock.

For mosquito larvae control, applications should be made to moist areas, standing water, and around the edges of larger ponds, lakes, marshes, swamps, and tidal areas. Also apply around and under jumps, catch basins, and similar areas where mosquitoes breed.

**RECOMMENDED APPLICATIONS**

INSECT	Pounds BAYTEX 5% Granular	REMARKS
Mosquito Larvae	4	Apply specified dosage per acre uniformly. Repeat as necessary except as noted for use on alfalfa and pasture grass.
<b>For treatment of small areas:</b> Use 1 1/2 ounces per 1,000 sq. ft. (20 x 50 ft.)		

**RESTRICTIONS**

1. Do not use inside homes, in dairy barns, poultry houses, or buildings where food is processed.
2. Do not use on food crops.
3. Do not apply to ponds, lakes, streams, or other bodies of water containing fish.

**FISH AND WILDLIFE CAUTION**

This product is toxic to fish and wildlife. Birds feeding on treated areas may be killed. Shrimp and crab may be killed at application rates recommended on this label. Do not apply where these are important resources. Do not apply when weather conditions favor drift from areas treated. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

**CAUTION**

Harmful if swallowed, inhaled, or absorbed through the skin. Do not get in eyes, on skin, or on clothing. Do not breathe dust. Wash thoroughly with soap and warm water after handling. Wash clothing with soap and hot water before reuse.

Avoid contamination of feed or food. Keep out of reach of children.

**TO PHYSICIAN:**

**ANTIDOTE**—Administer atropine sulfate in large therapeutic doses. Repeat as necessary to the point of tolerance. 2-PAM is also antidotal and may be administered in conjunction with atropine.

**CONTAINER DISPOSAL**

Do not reuse container, Destroy it by burying with waste or by burning (Keep out of smoke).

**WARRANTY AND LIMITATION OF DAMAGES**

Chemagro Corporation warrants that this material conforms to the chemical description on the label and is reasonably fit for the purposes referred to therein. CHEMAGRO CORPORATION MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY, INCLUDING ANY OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR OF MERCHANTABILITY, and no agent of Chemagro Corporation is authorized to do so except in writing, with a specific reference to this warranty. Any damages arising from a breach of this warranty shall be limited to direct damages, and shall not include consequential commercial damages such as loss of profits or values, etc.
