EPA Reg. No. 3125-76

(R)
DYLOX
5% GRANULAR
CROP INSECTICIDE

AMENDMENT
To Previously Registered Label

ADD THE FOLLOWING:

RECOMMENDED APPLICATIONS

CROP	PEST	Pounds DYLOX 5% Gran.	REMARKS
ORNAMENTALS			
Lawns and Ornamental Turf	Sod Webworm (Lawn moths)	2 1/2	Apply specified dosage uniformly over 1,000 sq. ft. of lawn or turf area with any suitable lawn spreader that can be accurately calibrated. For best results, mow the lawn and rake dead grass from damaged spots before applying. After the granules are uniformly applied, water the lawn using 15 to 30 gallons per 1,000 sq. ft. Do not water again for at least three days. Repeat applications as necessary at one to three week intervals. In most areas the first of these applications should be made in May or June. Consult your State Agricultural Experiment Station or State Extension Service Specialists for more specific information regarding timing of applications.

RESTRICTIONS

PROTECT WILDLIFE!!

The contents of this container are toxic to wildlife and must be applied in strict accordance with label directions. Birds feeding on recently treated areas may be killed. Keep out of any body of water. Do not apply where runoff is likely to occur. In cleaning of equipment or disposal of wastes, do not contaminate water.
