

ENTEX  
 FEDERAL REGISTER  
 1967

50% PIPERONYL BUTOXIDE  
 PDC INSECTICIDE

FOR USE BY QUALIFIED PEST CONTROL OPERATORS ONLY

FOR EFFECTIVE CONTROL OF HOUSEHOLD PESTS

NET CONTENTS      OUNCES

CAUTION  
 (See rear panel for caution  
 statements)

KEEP OUT OF REACH OF CHILDREN

ACTIVE INGREDIENTS:

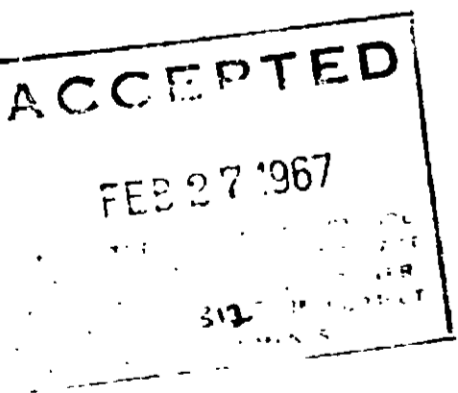

<u>1,2-Dimethyl 2-[(4-methylphenoxy)-</u>	
<u>-ethyl] phosphorothioate</u> .....	9.00%
Technical Piperonyl butoxide .....	3.10%
Pyrethrins .....	0.01%
Isocrotonol Distillate .....	87.89%
OTHER INGREDIENTS: .....	0.00%
	100.00%

U.S. Patent No. 3,348,703  
 Canadian Patent No. 831,472

USDA Reg. No. 3125-95

STOP - READ THE LABEL BEFORE USE

MANUFACTURED BY  
 CHEMICAL CORPORATION  
 KANSAS CITY, MO.

Note: Underlined letters in chemical nomenclature should be italicized when printed, not underlined.

ENTEX may be used indoors or outdoors for the control of household pests. It is a contact insecticide and should be applied to cracks, crevices, and other hiding places. It is not intended for use on food, food containers, or other surfaces where food is prepared or stored. It is also not intended for use on clothing, linens, or other fabrics. It is a powerful insecticide and should be used with caution. It is highly toxic to fish and aquatic life. It is also highly toxic to birds and mammals. It is a contact insecticide and should be applied to cracks, crevices, and other hiding places. It is not intended for use on food, food containers, or other surfaces where food is prepared or stored. It is also not intended for use on clothing, linens, or other fabrics. It is a powerful insecticide and should be used with caution. It is highly toxic to fish and aquatic life. It is also highly toxic to birds and mammals.

It is a powerful insecticide and should be used with caution. It is highly toxic to fish and aquatic life. It is also highly toxic to birds and mammals.

For use inside buildings, application should be made to cracks, crevices, and other hiding places where insects hide, rest, or nest. Also apply to exposed surfaces where the insects will crawl when they come out of hiding. Repeat as necessary to maintain effective control.

For exterior use apply as a contact spray to cracks, crevices, window frames, door sills, and other hiding places. Apply to the nest of wasps after work when all the insects have returned to the nest. Repeat as necessary to maintain effective control.

PRECAUTIONS

Do not use as a space spray. Avoid excessive wetting of asphalt, tile, rubber, and plastic materials.

Do not use in areas where children or pets can come into direct contact with treated surfaces.

Remove fish bowls from room before spraying.

Do not use in dairy barns or poultry houses.

Do not puncture container or throw in fire. Do not place container on stove or heat or expose to temperatures above 120° F.

CAUTION

Harmful if swallowed, inhaled or absorbed through the skin. Do not use on children. Do not get in eyes, on hair, or on clothing. Wash clothing with soap and water before reuse. Wash hands after handling. Wash clothing with soap and water before reuse. Do not use on food, food containers, or other surfaces where food is prepared or stored. Do not use on clothing, linens, or other fabrics. Clean thoroughly before reuse.
