EPA Reg. No. 3125-146

To Previously Registered Labeling

Revise as shown:

Pest Control in Meat Packing and Food Processing Plants, Food Storage Areas and Restaurants:

For control of ants, cockroaches, millipedes, saw-toothed grain beetle (exposed stage silverfish, spiders, and waterbugs, mix 2 ounces of BAYGON 70% Wettable Powder in 1 gallon of water (1.1% concentration)

**Non-Food Areas:** Apply to floors, walls, ceilings, or other infested areas.

Food Areas: Limited to Crack and Crevice Treatment Only - Apply a small amount of material directly into cracks and crevices such as expansion joints between different elements of construction or between equipment bases and the floor, wall voids, motor housing, junction boxes or switch boxes, conduits or hollow equipment legs where the insects noted above hide.

Care should be taken to avoid depositing the product onto exposed surfaces or introducing the material into the air. Avoid contamination of food or food processing surfaces.

Applications of this product in the food areas of food handling establishments, other than as a crack and crevice treatment, are not permitted.

Spraying unloading docks and outside areas where insects congregate will aid in preventing re-infestations. Good sanitation and proper disposal of wastes is essential in any effective insect control program.
