U.S. LABET.

Reason to Issue: To add bluegrass billbug as insect controlled on lawns and turf and remove Florida only restriction on Hunting Billbugs. 11/22/74 Draft: To restrict Hunting Billbug claims to Southeastern U.S. only.

Date of Draft: 11/22/74(Pre-Reg.)(R)
Supersedes draft dated: 9/18/74

EPA Reg. No. 3125-146-AA

R BAYGON 70%

Wettable Powder

Amendment
To Previously Registered Labeling

Revise as follows:

Chinch Bugs (Florida Only), <u>Bluegrass Billbug</u> and Hunting Billbugs (<u>Southeastern U.S. Only</u>) - Apply 4 ounces of BAYGON 70% Wettable Powder per 1,000 sq. ft. of lawn or turf area. Do not use less than 15 gallons of water per 1,000 sq. ft. For best results, use 30 to 40 gallons of water per 1,000 sq. ft. Repeat as necessary. For most effective control of chinch bugs, BAYGON 70% Wettable Powder should be applied during the spring and summer months or as recommended by your State Agricultural Experiment Station or Extension Services. For best results, lawns should be watered before applying BAYGON.

All label text above, except that which is underlined has had previous registration acceptance.
