

AUG -3 1993

Mr. John S. Thornton
Miles Inc.
P.O. Box 4913
8400 Hawthorn Road
Kansas City, Missouri 64120-0013

Dear Mr. Thornton:

Subject: Revised Labeling and Confidential Statement of Formula
Baygon Technical
EPA Registration No. 3125-174
Your Application Dated March 22, 1993

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable, subject to the comment listed below.

- ▶ The Warranty Statement has been incorporated into the Directions for Use. This statement should be a separate section and should not be a part of the use directions. This portion of the label must be revised.

A stamped copy of the label is enclosed for your records.

We have reviewed the Confidential Statement of Formula (CSF) dated March 15, 1993, which utilizes the Nominal Method for calculation of the label claim, as directed by PR Notice 91-2. The CSF is acceptable, however, we believe that it is possible for the major impurities in the product to be identified. We note that the last accepted CSF for Baygon Technical, dated December 15, 1988, identified six impurities. Please revise and resubmit the CSF within 60 days of the date of this letter.

Sincerely,

DKE

Dennis H. Edwards, Jr.
Product Manager 19
Insecticide-Rodenticide Branch
Registration Division (H7505C)

STORAGE AND DISPOSAL

Pesticide Disposal: Do not contaminate water, food or feed by storage or disposal.

Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

Container Disposal: Do not use container in connection with food, feed, or drinking water. Completely empty container into processing equipment. Then dispose of empty container in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

Store in a cool, dry place and in such a manner as to prevent cross contamination with other pesticides, fertilizers, food, and feed. Store in original container and out of the reach of children, preferably in a locked storage area.

Handle and open container in a manner as to prevent spillage. If the container is leaking or material spilled for any reason or cause, carefully sweep material into a pile. Refer to Precautionary Statements on label for hazards associated with the handling of this material. Do not walk through spilled material. Dispose of pesticide as directed above. In spill or leak incidents, keep unauthorized people away. You may contact the Miles Emergency Response Team for decontamination procedures or any other assistance that may be necessary. The Miles Kansas City Emergency Response Telephone No. is 816-242-2582, or contact Chemtrec at 800-424-9300.
