U.S. FISH AND WILDLIFE SERVICE

For use only by Personnel of the Bureau of Commercial Fisheries

For use in Survey work to determine Population
Levels of Sea Lamprey Larvae

NET WEIGHT _____ POUNDS

CAUTION
(See rear panel for caution
statements)

KEEP OUT OF REACH OF CHILDREN

CONTAINS

ACTIVE INGREDIENT:
2-Aminoethanol Salt of 2',5-dichloro
-4'-nitrosalicylanilide 7 5%

INERT INGREDIENTS: 95%
100%

U.S. Patent Nos. 3,173,297 and
3,173,607

Chemagro Corp. 10000 E. 1st Ave., Denver, Colorado 80231
and limitation of liability. See also the "Label" and "Granular".

Directions or other instructions are given in the opinion of experts based on tests of effectiveness, of toxicity to plants and laboratory animals and of residues on or in food and feed under normal conditions of use. However, because of the wide range of conditions under which this product may be used, even though label directions are followed, it is impossible to eliminate all risks associated with its use because of abnormal conditions beyond the control of the seller. Chemagro Corporation and the seller offer, and the buyer uses, this product subject to the understanding that the buyer assumes all such risks.

MAYLSCIDE D, Granular has proved to be a useful tool for determining populations of Sea Lamprey larvae in stream. The granules, when applied to areas to be surveyed, fall rapidly to the stream bottom where they give excellent kill of lamprey eel larvae.

Apply 100 pounds of MAYLSCIDE D, Granular evenly over each surface acre of water (2 1/3 pounds/1,000 square feet). Use equipment that can be accurately calibrated to distribute the required amount of granular evenly over the area to be treated.

When applied as directed, MAYLSCIDE will not harm game fish populations that may be present in treated waters. MAYLSCIDE applications will be toxic to freshwater clams and mussels and may be toxic to fish species that are physiologically bound to the stream bottom.

Caution

May be harmful if swallowed. Wash thoroughly with soap and water after handling. Do not contaminate feed or food. Keep out of reach of children.

WARRANTY AND LIMITATION OF REMEDY

Chemagro Corp. warrants that this material conforms to the description on the label and is reasonably fit for the purpose referred to in the direction for use and conditions of sale, or to the use referred to therein. Chemagro Corporation makes no other express or implied warranty, including any other express or implied warranty of fitness or of merchantability, or of absence of chemical contamination, is authorized to do so except in writing, with a specific reference to this warranty. Any cause of action, from a breach of this warranty, shall be limited to direct damages, and shall not include consequential damages such as loss of profit or values, etc.

Patentmark of 3,470,000 (U.S. Pat. 2,800,000) is a registered trademark of Chemagro Corporation.
