MESUROL 2% Bait is very effective for the control of slugs, snails and sowbugs; and to aid in control of millipedes around the home, in flower gardens, and in ornamental greenhouses. The bait should be applied to soil around plants but not directly to plant foliage. CAUTION: Do not use around food crops.

Sprinkle 1 pound of MESUROL 2% Bait uniformly over 1000 square feet of area to be treated. For best results lightly water the area to be treated before applying the bait. Repeat applications as necessary to keep areas free of pests.
