

DRUM HANDLING

1. Handle drums carefully so as to avoid damage and prevent leakage.
2. Store drums in a cool, well-ventilated place.
3. Open drums only when set on end and under a ventilated hood. Unscrew bungs slowly to release any internal pressure. Then fit both bungs with valves.
4. To empty drums containing NEMACUR, connect one valve to an open vent pipe and the other to a closed storage or impregnation system.
5. Drums that have contained NEMACUR should never be re-used. Empty drums should be decontaminated by washing with hot, 5% caustic soda solution. They should then be perforated to prevent further use and be discarded in a safe place.

SYMPTOMS OF POISONING: A sense of "tightness" in the chest. Sweating. Contracted pupils. Stomach pains. Vomiting and diarrhea.

TREATMENT: In case of poisoning call a physician immediately. Have patient lie down and keep quiet. If swallowed, induce vomiting by giving a tablespoonful of salt in a glass of warm water. Administer milk or water freely and again induce vomiting until vomit fluid is clear. In on skin, remove contaminated clothing and wash skin immediately with soap and warm water. If eyes are contaminated, wash with flowing water for at least 15 minutes.

TO PHYSICIAN:

ANTIDOTE — Administer atropine sulfate in large therapeutic doses. Repeat as necessary to the point of tolerance. 2-PAM is also antidotal and may be administered in conjunction with atropine.

Compound inhibits cholinesterase resulting in stimulation of the central nervous system, the parasympathetic nervous system, and the somatic motor nerves. Do not give morphine. Watch for pulmonary edema, which may develop in serious cases of poisoning even after 12 hours. At first sign of pulmonary edema, the patient should be placed in an oxygen tent and treated symptomatically.

NEMACUR TECHNICAL

FOR USE IN THE MANUFACTURE OF ECONOMIC POISONS

STOP - READ THE LABEL BEFORE USE

Atropine sulfate is antidotal. Consult physician for emergency supply.

DANGER

KEEP OUT OF REACH OF
CHILDREN

(See side panel for antidote and danger statements)

ACTIVE INGREDIENT:

Ethyl 4-(methylthio)-m-tolyl

isopropylphosphoramidate* 72%

INERT INGREDIENTS: 28%

100%

*U.S. Patent No. 2,978,479

Canadian Patent No. 679,735

EPA Reg. No. 3125-269

This container is dangerous if evidence of leakage is present. Read warning instructions and handle with extreme care, observing all precautions recommended.

SKIN. REPEATED EXPOSURE MAY, WITHOUT SYMPTOMS, BE INCREASINGLY HAZARDOUS.

Do not breathe fumes. Wear a mask or respirator effective for protection against NEMACUR. Information as to suitable types of masks or respirators is available from the U.S. Bureau of Mines.

Do not get in eyes, on skin, or on clothing. Wear goggles, clean, heavy, natural rubber gloves and clean waterproof, or freshly laundered protective clothing (coveralls, rubber boots, cap, etc.). Destroy and replace gloves frequently. Bathe immediately after work and change all clothing. Wash clothing thoroughly with soap and hot water before reuse.

In case of contact, immediately remove contaminated clothing and wash thoroughly with soap and warm water. For eyes, flush with water for 15 minutes.

In case of spillage, cover with an absorbent such as soda ash, clay, or sawdust. Sweep up and bury. Wash area thoroughly with strong lye solution.

This product is toxic to fish and wildlife. Keep out of lakes, streams, and ponds.

WARRANTY AND LIMITATION OF DAMAGES

Chemagro warrants that this material conforms to the chemical description on the label. CHEMAGRO MAKES NO OTHER EXPRESS OR IMPLIED WARRANTY, INCLUDING ANY OTHER EXPRESS OR IMPLIED WARRANTY OF FITNESS OR OF MERCHANTABILITY, and no agent of Chemagro is authorized to do so except in writing, with a specific reference to this warranty. Any damages arising from a breach of this warranty shall be limited to direct damages, and shall not include consequential damages such as loss of profits or values, etc.

NEMACUR is a Reg. TM of Farbenfabriken Bayer AG, Trademark in Canada.
