Section II - Notification Information

PR Notice 93-3 states that registrants of currently registered products with terrestrial, forestry (except aerial application) and domestic, outdoor uses should revise the statement in the Environmental Hazards section which reads "Do not apply directly to water or wetlands (swamps, bogs, marshes or potholes)..." to read "For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark."

Our DEF 6 label currently contains the environmental hazard statement "Do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark." Per PR Notice 93-3, we are submitting revised draft labeling, dated 5/17/93 in which this statement has been revised to read "For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark."
