2/2

## RECOMMENDED APPLICATIONS

CROP	PEST	RATE PER APPLICATION	REMARKS
Hops	Aphids	6.4 fl oz per acre	<p>Apply specified dosage as a foliar spray by ground or air application to ensure good coverage. Thorough uniform coverage of the crop foliage is necessary for optimal control. Addition of an organosilicone-based spray adjuvant at a rate not to exceed the adjuvant manufacturer's recommended use rate may improve coverage.</p> <p>Allow a minimum of 21 days between applications. Allow at least 28 days between last application and harvest.</p> <p>Do not apply more than 6.4 fl oz per acre in a single application. Do not apply more than 19.2 fl oz per acre per crop season.</p>
