U.S. ENVIRONMENTAL PROTECTION AGENCY
Office of Pesticide Programs
Registration Division (H7505C)
401 "M" St., S.W.
Washington, D.C. 20460

EPA Reg. Number:

3125-503

Date of Issuance:

MAR 11 1998

NOTICE OF PESTICIDE:

☒ Registration
☐ Reregistration

Term of Issuance: Unconditional

Name of Pesticide Product:

Tempo RTU

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Bayer Corporation
8400 Hawthorn Road
PO Box 4913
Kansas City, KS 64120-0013

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA sec. 3(c)(5). Once a pesticide is registered, however, it is not regarded as permanently acceptable. Registration does not eliminate the need for continual reassessment of pesticides. If the Agency determines that, at any time, additional data are required to maintain in effect an existing registration, the Agency will require submission of such data under FIFRA section (3)(c)(2)(B).

1. Submit and/or cite all data required for registration/ reregistration of your product under FIFRA sec. 3(c)(5) when the Agency requires all registrants of similar products to submit such data; and submit acceptable responses required for reregistration of your product under FIFRA section 4.

2. Make the following label changes:

- Revise the EPA Registration Number to read, "EPA Reg. No. 3125-503".
- Under Vegetable Gardens revise the statement as follows: "...to the point of runoff, but do not let runoff occur." This statement should appear under every set of directions. Alternatively you can put a statement regarding runoff in the beginning under "How to Apply."
- Under First Aid the terms "swallowing," "contact with eyes," and "inhalation" should be capitalized and in bold face print.

Signature of Approving Official:

Date:

- 2076
- d. Revise "guidelines" to "directions" wherever it appears on the labeling. Also delete the phrases "responsible use" and "To use this product responsibly." These phrases are somewhat misleading, implying that directions for use are highly suggestive but not mandatory for the proper use of the insecticide.
 - e. Delete "possible" from the heading Possible Hazards to Humans and Domestic Animals.
 - f. "New" may be used for a period of 6 months after release of the product into the marketplace. Claims marked with an "x" are unacceptable. Claims implying total eradication of pests, or vague, non-specific terms are unacceptable. "Keeps killing for weeks/protection...." is not acceptable because it conflicts with "reapply to 7 to 14 days, if needed."
 - g. Under Ornamental Plant Applications add: "If possible move house plants outdoors before spraying."
3. The listing of inert ingredients ("other ingredients") is acceptable at this time. However, the Agency will continue to examine this issue and labeling changes may be required in the future.
4. Product Chemistry data submitted under MRID 443440-01 has been reviewed and is acceptable.

George T. LaRocca
Product Manager (13)
Insecticide Branch
Registration Division (7505C)

Reason to Issue: To introduce new product. Draft Dated 12/01/97: To revise in accordance with EPA comments.

Date of Pre-Reg Draft: 12/01/97 (S)
Supersedes Pre-Reg Draft Dated: 07/24/97

Tempo® RTU

Insecticide

with COMMENTS
in EPA Letter Dated

MAR 11 1998

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

3125-503

First Aid

The table below describes the first aid procedures for incidents involving TEMPO RTU.

| IN THE CASE OF ACCIDENTAL... | IMMEDIATELY... |
|---|--|
| swallowing | <p>If the person is able to swallow:</p> <ul style="list-style-type: none"> Have them sip 1 to 2 glassfuls of water Call a doctor or poison control center for further treatment advice. |
| contact with eyes | <ul style="list-style-type: none"> Hold eye open and rinse slowly and gently with water. Continue to rinse eye for 10 to 15 minutes. Call a doctor if irritation persists. |
| inhalation | <ul style="list-style-type: none"> If breathing is affected, move person to fresh air Contact doctor or poison control center for further treatment advice If not breathing, call an ambulance and give artificial respiration. |
| <p>NOTE: When calling poison control center, have this product label accessible. If seeking treatment at an emergency room or doctor's office, bring this product label to show medical personnel. You may call 800-414-0244 for medical emergency information. Active Ingredient: Cyfluthrin [CAS # 68359-37-5]</p> | |

Note to Physician: No specific antidote is available. Treat the patient symptomatically.

Environmental Hazards

- This pesticide is toxic to fish. Do not apply directly to water.
- This pesticide is highly toxic to bees. Do not apply TEMPO RTU when bees are active.
- Apply this product only as specified on this label.

DIRECTIONS FOR USE IMPORTANT: Follow Label Directions

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For best results, read and follow all label directions.

Responsible Use

To use this product responsibly, follow the guidelines below when applying TEMPO RTU:

- Apply the product to flowering plants during early morning or late evening, when bees are not present.
- Do not spray the product into fish pools, ponds, streams, or lakes.
- Keep children and pets away from treated areas until spray has dried.
- Do not use in small, enclosed areas where spray can be inhaled.
