Subject: Merit + Tempo Ready-To-Use Insecticide  
EPA Reg. No. 3125-504  
Application for amended registration dated October 22, 1999 and  
resubmission dated November 5, 1999 - Label revision and alternate brand  
name.

Dear Mr. Thornton,

This letter supersedes our letter dated October 28, 1999 regarding EPA Reg. No. 3125-504. Your proposed revised label, which was submitted in finished format on October 22, 1999 and resubmitted on November 5, 1999, has been reviewed. The label is acceptable at this time provided you make the changes indicated below at the next printing of your label.

1. The statement "FOR RESIDENTIAL USE ONLY" was included on the front panel of the last stamped accepted label (May 19, 1999) and must be added to the front panel of the revised label.
2. The following statement was included on the front panel of the last stamped accepted label and must be added to the front panel as one of the bullet points under the product name:

"\* For Use on Flowers, Roses, Shrubs."

In addition, you may add "house plants and ground covers" to the above statement since these use sites were also listed on the last stamped accepted label.

3. Under "DIRECTIONS FOR USE," at top of the "HOW TO USE" section, change the first word "Spray" to "Shake."
4. As you know, EPA will soon be issuing a PR Notice concerning improvements to the format and content of "First Aid" statements (formerly "Statement of Practical Treatment") on all pesticide product labels. The "First Aid" statements in the upcoming PR Notice will supersede the statements that are listed in the December 1996 Label Review Manual. In addition, EPA is

currently is revising the Label Review Manual; the revised manual will incorporate the updated "First Aid" statements from the PR Notice. At this time, we recommend that you incorporate the updated "First Aid" statements on your new product label by revising the instructions under "FIRST AID" to read as indicated below:

"IF SWALLOWED: Call a poison control center or doctor immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor.

"IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing the eye. Call a poison control center or doctor for treatment advice."

IF INHALED: Move person to fresh air. If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably mouth-to-mouth if possible."

You may continue to use the same format for the First Aid section that is used on your label submitted November 5, 1999 (i.e. the box format with the headings "IN CASE OF ACCIDENTAL.....SWALLOWING, CONTACT WITH EYES, INHALATION" - followed by the above text in bullet format).

Since the label submitted on November 5, 1999 is in finished format and is substantially similar to the last accepted label (stamped May 19, 1999), and since the revisions requested above do not raise risk concerns associated with the use of this product, we will allow you to use this labeling for a period not to exceed January 31, 2000. Products released for shipment after January 31, 2000 must bear labeling revised in accordance with this letter.

Please submit one copy of your revised final printed labeling before you release the product for shipment. If the above specified conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records. If you have any questions regarding this letter, please contact me by phone at (703) 305-5417 or via E-mail at Perreault.peg@epamail.epa.gov.

Sincerely yours,

Peg Perreault

**KILLS**

Adelgids, Aphids, Bagworms, Boxelder Bugs, Clover Mites, Elm Leaf Beetles, Grasshoppers, Gypsy Moth Larvae, Japanese Beetles (adult), Lacebugs, Leaf-feeding Beetles, Leaf-feeding Caterpillars, Leafminers, Mealybugs, Mosquitoes, Pillbugs, Sawfly Larvae, Scale Insects (crawler stages), Spittlebugs, Thrips, Whiteflies

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. For best results, read and follow all label directions.

**BEFORE  
YOU USE**

Read and  
follow these  
directions  
when using.

- Apply the product to flowering plants during early morning or late evening, when bees are not present.
- Do not spray the product into fish pools, ponds, streams, or lakes.
- Remove animal feeding dishes prior to application.
- Do not use in small, enclosed areas where spray may be inhaled.
- Do not apply to fruits or vegetables used for food.

**DIRECTIONS FOR USE (cont'd)**

**WHEN  
TO USE**

When insects or damage first appear. To avoid serious damage to plants, eliminate pests early in the season before they multiply.

*Shake*

**HOW  
TO USE**

- Spray well before using.
- Adjust nozzle to desired spray pattern
- Hold sprayer about 12 inches from foliage
- Spray leaves, stems and tender new shoots

To kill insects that hide, spray the underside of the leaves. Apply until leaves are evenly coated with spray, but not dripping.

**HOW  
OFTEN**

Kills insects on contact and keeps on killing for up to 30 days. For severe infestations, repeat every 7-14 days as necessary.

**FOR BEST RESULTS**

Do not water the foliage within one hour after applying. To avoid serious damage to plants, control pests early in the season before they multiply.

Children and pets may re-enter the treated area after spray has dried.
