Dylox® Grub Control Insecticide EPA Reg. No. 3125-507 November 16, 2001

#### Section II - Explanation

With this application, Bayer Corporation is submitting a Notification to rephrase previously accepted claims for **Dylox® Grub Control Insecticide**, **EPA Reg. No. 3125-507**, without altering the claim intent. The original claims are not being deleted from the label. The enclosed minor text change is being provided to the Agency in accordance with PR Notice 98-10, II, N "Other Revisions." One copy of the revised label, highlighted with changes, is enclosed for the Agency files.

The additional rephrased claims for Dylox® Grub Control Insecticide are:

- Nothing works faster on grubs overnight results
- Degrades quickly will not linger
- Also kills sod webworms, mole crickets & cutworms

Additionally, we have added graphic symbols to the Quick Facts box, the First Aid box, the re-entry statement box and the Directions for Storage and Disposal box on the back panel of the label, in accordance with PR Notice 98-10, II, H "Use of Symbols and Graphics."

This notification is consistent with the provision of PR Notice 98-10 and EPA regulations at 40 CFR 152.46. No other changes have been made to the labeling or the Confidential Statement of Formula of this product. I understand that it is a violation of 18 U.S.C. sec. 1001 to willfully make any false statement to the EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and Bayer Corporation may be subject to enforcement action and penalties under sections 12 and 14 of FIFRA.

Dylox Grub Control notification 1 01.wpd

## Dylox® Grub Control

#### Insecticide

**READY-TO-USE** 

DYLOX is a fast-acting insecticide which kills:

- · white grubs,
- · mole crickets,
- · sod webworms, and
- · cutworms.

For Use On: Lawns

#### NOTIFICATION

DEC 2 6 2001

- Kills Grubs within 24 hours
- · Delivers Overnight Results
- · Nothing Kills Grubs Faster
- · Stops Grubs From Further Damaging Lawn
- · For Use After First Signs of Grubs
- · Degrades Quickly Does Not Linger
- · Also Controls Sod Webworms, Mole Crickets, Cutworms
- · Contains Dylox
- · Nothing works faster on grubs overnight results
- · Degrades quickly will not linger
- · Also kills sod webworms, mole crickets & cutworms

**ACTIVE INGREDIENT:** 

 Trichlorfon
 6.2%

 OTHER INGREDIENT\*

EPA Est. No. XXXX-AA-XX

### PRECAUTIONARY STATEMENTS Hazards to Humans and Domestic Animals

#### **CAUTION**

- · Harmful if swallowed
- Do not breathe dust
- · Avoid contact with eyes, skin or clothing
- Do not apply with hand-held or chest-mounted spreader
- · May cause allergic skin reactions in some people
- Wash throughly after handling and before eating or smoking

#### **Environmental Hazards**

- This pesticide is toxic to fish, bird and wildlife. Do not apply directly to water.
- Do not contaminate water when cleaning equipment or disposing of equipment wash water.
- · Apply this product only as specified on this label.

#### **DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For best results, read and follow all label directions.

# YOU USE Read and follow these directions when

**BEFORE** 

using:

- Do not apply near fish pools, ponds, streams or lakes.
- Do not apply to waterlogged soil.
- Water grass as soon as possible after application to move product to root zone where insects feed.
- Do not allow children or pets on treated lawn until grass has been watered and allowed to dry.

	To Control	When to apply					
WHEN TO USE	Grubs	Apply when grubs are present					
	Mole Crickets	Apply when mole crickets are present					
	Cutworms Sod Webworms	Mid-May through Mid-June					
Continued on ne	xt page	•					

#### **DIRECTIONS FOR USE (continued)**

#### **HOW TO USE**

#### **LAWNS** How Much: See Spreader Settings Water Adjust spreader To be sure you cover the to the proper entire area uniformly, first thoroughly after treat the border of the lawn applying. setting (see Spreader then fill in the center. Make (ART) Settings). parallel passes, walking at a steady pace to ensure even (ART) distribution of the granules.

#### For best results:

- The best time to kill grubs is July through September, when they are young and actively feeding near the soil surface.
- Water thoroughly within 24 hours after applying.
- Do not mow until the granules are watered into the soil.
- Avoid applying DYLOX Grub Control Insecticide to waterlogged areas, as this may decrease the product's effectiveness.
- You may spread DYLOX Grub Control Insecticide over soil or mulch. If present, remove weed barrier before applying.

#### SIGNS OF DAMAGE TO LAWNS

**Grubs:** White grubs cause extensive damage to lawns by feeding on grass roots. Grass turns yellow, then

brown and dies. Grubs chew off roots so that the grass is easily pulled up in pieces with your hands.

You can roll it back like a carpet to reveal the grubs. If patches of dead grass appeared in your lawn late last summer, check for grubs.

Mole crickets: Mole crickets often cause extensive damage by tunneling through lawns. Some species also feed on roots. Tunneling uproots the grass so it easily dries out. Lawns turn yellow, become thin, weedy and can eventually die.

Sod webworms and cutworms: Sod webworms and cutworms damage lawn by cutting blades of grass near the ground. Small brown patches will appear. Cutworms can also be seen in the lawn. Webworms nest down in the thatch layer, coming up to feed at night.

#### HOW IT WORKS

DYLOX Grub Control Insecticide is intended to be used when insects and grubs are present. After granules are watered in, insects are killed on contact. The active ingredient then degrades quickly.

Children and pets may re-enter only after the treated area has been watered and allowed to dry.

#### Spreader Settings

If your spreader is not listed, please call our Consumer Service Hotline toll-free (877) 229-3725 for help.

Rate for Grubs and Mole Crickets: 3 lbs per 1,000 sq ft Rate for Sod Webworms and Cutworms: 2 lbs per 1,000 sq ft

ı	SETTING*						
SPREADER	To Deliver	To Deliver
