Registration Division (H7505C)
401 "M" St., S.W.
Washington, D.C. 20460

EPA Reg. Number:

3125-509

Date of Issuance:

DEC 23 1997

Term of Issuance:

Unconditional

Name of Pesticide Product:

Tempo® Insecticide

NOTICE OF PESTICIDE:

☒ Registration
☐ Reregistration

(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Bayer Corporation
8400 Hawthorne Road
P.O. 4913
Kansas City, MO 64120

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is unconditionally registered in accordance with FIFRA sec. 3(c)(5). Once a pesticide is registered, however, it is not regarded as permanently acceptable. Registration does not eliminate the need for continual reassessment of pesticides. If the Agency determines that, at any time, additional data are required to maintain in effect the existing registration, the Agency will require submission of such data under FIFRA section (3)(c)(2)(B).

Make the labeling changes listed below before you release the product for shipment:

1. Add the phrase, "EPA Registration No. 3125-509".
2. In the First Aid table under treatment in case of accidental swallowing, add the following after "xxx glassfuls of water":

"Induce vomiting by touching the back of the throat, or if available by administering syrup of ipecac. If person is unconscious, do not give anything by mouth and do not induce vomiting."

3. Under **How to Apply**, add "Do not use spoons for food/feed after use with this product. Keep for measuring use only."

Page Two
EPA Reg. No. 3125-509

4. Under the directions for control of termites add "NOTE: This application is not intended as a substitute for soil treatments for termite control."

Submit two copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

Your voluntary compliance with PR Notices 97-5 and 97-6 is noted.

A stamped copy of the label is enclosed for your records.

ACCEPTED
with COMMENTS
in EPA Letter Dated

DEC 23 1997

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

3125-509

Note to Physician: No specific antidote is available. Treat patient symptomatically.

TEMPO Insecticide Dust

Environmental Hazards

- This pesticide is toxic to fish. Do not apply directly to water.
- Apply this product only as specified on this label.

DIRECTIONS FOR USE

IMPORTANT:

Follow Label Directions

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. For best results, read and follow all label directions.

Responsible Use

To use responsibly, follow these guidelines when applying TEMPO Insecticide Dust.

- Do not remove or tightly cover fish bowls or aquariums.
- Do **not** deposit dust onto exposed surfaces of living areas.
- Do **not** apply in places where children will come into contact with treated surfaces.
- Do **not** use when and where food is exposed.

How to Apply

Apply TEMPO Insecticide Dust directly onto the appropriate area using

- One-third to two-thirds ounce (1 to 2 level tablespoons) per square yard of area.

The table below describes where to apply TEMPO Insecticide Dust to control specific indoor and outdoor pests.

Important: TEMPO Insecticide Dust controls wood-infesting pests that are present *at the time of application only* and should be used as a *supplement to* not a *substitute for* conventional fumigation, foundation, or soil treatments.

TO CONTROL...	APPLY TEMPO Insecticide Dust...
ants beetles crickets roaches spiders waterbugs other crawling insects	To all areas where these pests crawl and hide, especially: <ul style="list-style-type: none"> • Cracks, crevices, and voids around sinks and storage areas. • Around doors, windows, and baseboard cracks. • Behind and under refrigerators, cabinets, sinks, and stoves. • Attics and crawl spaces.
carpet beetles, and/or silverfish	<ul style="list-style-type: none"> • Under edges of floor coverings. • Under rugs and furniture. • In closet cracks and crevices.
Wood Infesting Pests	
termites and/or wood-infesting beetles	<ul style="list-style-type: none"> • To voids and galleries in damaged wood. • In spaces between wooden structure components. • Between the sill plate and foundation (where wood is most vulnerable).
carpenter ants	<ul style="list-style-type: none"> • In cracks, crevices, and wall voids. • Around doors, windows, and other places where ants can enter the structure.
carpenter bees	<ul style="list-style-type: none"> • Directly into gallery entrance holes. <p>Note: Following treatment:</p> <ul style="list-style-type: none"> • Leave the entrance holes open for 24 hours to ensure that all returning bees are killed. • Seal the hole with a suitable sealant when activity has ceased.
Outdoor Pests	
outdoor and perimeter pests	<ul style="list-style-type: none"> • In voids, cracks, and crevices. • Around window and door frames. • In eaves, indoor porches, patios, and garages. • Under stairways. • In crawl spaces. • In other areas where pests hide. • In and around insect nest openings (Note: For bees and wasps, apply in the evening when insects are less active and have returned to the nests).

TEMPO Insecticide Dust

TO CONTROL...	APPLY TEMPO Insecticide Dust...
Fire Ants Pavement Ants Red Harvester Ants	<ul style="list-style-type: none"> • Apply 2 to 6 teaspoonfuls of TEMPO Insecticide Dust per mound. • Distribute dust evenly over each mound, including the base of the mound, using the higher dosages for larger mounds. • Applications made during prolonged hot and/or dry conditions may be less effective. • For optimum control, especially under dry conditions, application should be followed by lightly watering treated mounds using a watering can, garden hose or lawn sprinkler. • Treat new mounds as they appear.

STORAGE AND DISPOSAL

Storage Conditions

Store the original TEMPO Insecticide Dust container in a location that is cool and dry. The storage area should be locked and inaccessible to children.

Disposal

- Do not reuse empty product container.
- Wrap the empty container in several layers of newspaper.
- Place container in trash.
- **Important:** It is best to use all of the product in accordance with label directions. If it is necessary to dispose of unused product, please follow all state and local guidelines.

NOTICE

Research and testing has determined that the "Directions for Use" are appropriate for the proper use of TEMPO Insecticide Dust under expected conditions.

The Buyer assumes responsibility for lack of performance or safety if not used according to the directions on this label.
