FIRST AID	
In the case of accidental...	IMMEDIATELY...
Swallowing	If person is alert and able to swallow: <ul style="list-style-type: none"> • Have them sip 1 to 2 glasses of water. • Call a physician or poison control center for further treatment advice.
Contact with Eyes	<ul style="list-style-type: none"> • Open eyelids and rinse eye slowly and gently with water. • Continue to rinse eye for 10 to 15 minutes. • Call a physician or poison control center for further treatment advice if irritation persists.
Note to Physician: No specific antidote is available. Treat the patient symptomatically. You may call 800-414-0244 for more information.	

STORAGE AND DISPOSAL	
Do not contaminate water, food or feed by storage or disposal.	
Storage Conditions	Store in a cool, dry place and in such a manner as to prevent cross contamination with other pesticides, fertilizers, food, and feed. Store in original container and out of the reach of children, preferably in a locked storage area.
Pesticide Disposal	Pesticide wastes are toxic. Improper disposal of excess pesticide, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.
Container Disposal	Do not use container in connection with food, feed, or drinking water. Completely empty container into the processing equipment. Then dispose of empty container in a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke. Handle and open container in a manner as to prevent spillage. If the container is leaking or material is spilled for any reason or cause, carefully sweep material into a pile. Refer to Precautionary Statements on label for hazards associated with the handling of this material. Do not walk through spilled material. Dispose of pesticide as directed above. In spill or leak incidents, keep unauthorized people away. You may contact the Bayer Emergency Response Team for decontamination procedures or any other assistance that may be necessary. The Bayer Kansas City Emergency Response Telephone No. is 800-414-0244, or contact Chemtrec at 800-424-9300.
