

DIRECTIONS FOR USE

To operate remove protective snap off cap and hold container upright about 2-4 inches from dog's hair. Point nozzle toward dog and pump button up and down until animal's coat gets an even covering of LIQUA-SECT. Use a firm fast stroke to get proper spray mist. Spray until coat of animal is damp. It may be advantageous, especially on long haired dogs, to rub the hand against the lay of hair spraying into the ruffled hair directly behind the hand. Repeat treatment as necessary, making sure spray wets ticks. Repeat once a week if necessary.

Thoroughly spray interior of kennel or other animal sleeping quarters. Also spray bedding and replace with fresh bedding if necessary. Where animal is present, spray lightly into the air.
