Dear Mr. Gardner:

SUBJECT: EVSCO Theradex Shampoo  
EPA Registration No. 3134-28

We have reviewed your final printed labeling submitted with your certified letter of March 25, 1985, and on the basis of our original review and correspondence dated March 3, 1983, we found it to be acceptable. However since our original acute toxicity review of the eye irritation, the guideline criteria for eye irritation has been revised. Thus, while your current product label is technically acceptable, the precautionary language text relating to eye irritation is not consistent with our present guidelines and must be revised to read as follows at the time of your next label printing:

"May cause eye injury. Harmful if swallowed. Do not get in eyes or on clothing. Wear goggles, safety glasses or faceshield.

If in eyes. Flush with plenty of water. Get medical attention if irritation persists."

A stamped copy of the product label is enclosed for your records.

If you have any questions regarding this issues please do not hesitate to contact me at (703) 557-2690.

Sincerely yours,

Timothy A. Gardner  
Product Manager (17)  
Registration Division (TS-767)
