

**NON-INFLAMMABLE, NON-VOLATILE**

**LEMON-O-TEN DISINFECTANT, SANITIZER & CLEANER**

... is a powerful, non-toxic detergent that is highly effective against a wide range of bacteria, viruses and fungi.

General cleaning and disinfecting may be accomplished by using LEMON-O-TEN as the general cleaning solution for floors, work surfaces, tables, etc. Follow dilution recommendations under the following subheads:

**General Cleaning and Disinfecting:** Use a solution of from 2 to 4 ounces of LEMON-O-TEN per gallon of water for usual cleaning and sanitizing application on floors and walls.

**Sanitization of Food Process Equipment:** Scrub equipment in food processing plants, including meat plants, by using from 2 to 4 ounces of LEMON-O-TEN per gallon of water on surfaces difficult to clean completely. Increase strength of LEMON-O-TEN to 6 to 16 ounces per gallon of water. Flush equipment well with potable or safe water before re-use.

**Sanitization of Dairy Equipment:** Scrub equipment and cans with a solution of from 4 to 6 ounces of LEMON-O-TEN per gallon of water. Rinse with clean water and air dry.

**Sanitization of Glassware, Silverware, Dishes, etc.:** Wash glassware and cookware in a solution of 1 ounce of LEMON-O-TEN per gallon of water. Rinse with potable or safe water prior to food contact. Allow to air dry.

**Disinfecting Against Athlete's Foot Fungi:** Scrub floors around locker room and poolside, or areas where potential disease organisms may be present, with a solution of 4 to 6 ounces of LEMON-O-TEN per gallon of water.

**Disinfecting of Hospital Instruments:** Cold disinfecting of surgical instruments, trays, tables, rubber goods, etc., requires 6 to 10 ounces of LEMON-O-TEN per gallon of water. Allow contact period of at least ten minutes before rinsing well with potable water.

**Lemon-O-Ten Disinfectant, Sanitizer & Cleaner:** Fulfills the criteria of Appendix F of the Milk Ordinance and Code of the U. S. Health Service in water up to 550 parts per million of hardness.

**CAUTION:** Avoid contamination of food. Avoid contact with skin and eyes. In case of contact flush with plenty of water.
