

[3160-25]

DIRECTION FOR USE

**NOXEMNOW FOGGING CONCENTRATE** kills on contact the exposed (or accessible) stages of the granary weevil, rice weevil, confused flour beetle, rust red flour beetle, cadelle, saw toothed grain beetle, spider beetle, angoumois grain beetle, mediterranean flour beetle, meal worms, and grain mites. Apply dosage of 3 ounces of **NOXEMNOW FOGGING CONCENTRATE** per 1000 cu. ft. of area.

**USE NOXEMNOW FOGGING CONCENTRATE** in mills, elevators, granaries, warehouses, food storages and other places where an effective, fast acting insecticide is needed. As a space or vapor spray, it rapidly kills off flying and crawling stages. In cracks and crevices of floors, it is effective in the control of the grain insects. Apply **NOXEMNOW FOGGING CONCENTRATE** in a good machine, adjusted to deliver a coarse droplet spray, using approximately 1 gallon of **CONCENTRATE** for each 1000 square feet of surface. Repeat applications as needed.

**NOXEMNOW FOGGING CONCENTRATE** can be used in a food processing plant:

**CAUTION:** Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before using. When using as a space spray in these areas apply only when plant is not in operation.

**HAND SOAPS**

Coconut Oil Powder  
Honey Cream  
Waterless

**DISINFECTANTS**

For rapid control, use **NOXEMNOW FOGGING CONCENTRATE** in a good machine, adjusted to deliver a fine mist. Use approximately 1 ounce of **CONCENTRATE** for each 1000 cu. ft. of area.

Against flying pests such as house flies, mosquitoes, gnats, wasps, and skipper flies, spray toward the upper portions of the enclosure, filling the room with a mist. Whenever possible, keep doors and windows closed for 10 minutes after application. Use 3 ounces of **NOXEMNOW FOGGING CONCENTRATE** per 1000 cu. ft. of area, in the control of active stages of running and crawling pests, such as the granary weevil, rice weevil, confused flour beetle, red rust flour beetle, cadelle, saw toothed grain beetle, spider beetle, angoumois grain beetle, mediterranean flour beetle, meal worms, and grain mites, direct the mist toward and into all places commonly inhabited by these insects.

**TREATMENT OF FLOORS AND BINS:** Apply **CONCENTRATE** in a good machine, adjusted to deliver a coarse droplet spray, using approximately 1 gallon of **CONCENTRATE** for each 1000 square feet of surface. Repeat applications as needed. The directions are designated for the control of above listed grain pests.

**IMPORTANT:** Close all open containers and processing equipment before spraying. Do not apply directly to feed or foodstuffs. Cover all bags of grain, packaged cereal products and other food products. Buildings should be cleaned as thoroughly as possible and excessive quantities of dust and dirt removed before applying the insecticide.

**CAUTION:** Do not store, spray or otherwise expose this material to an open flame. Do not use on household or garden plants. Keep containers sealed at all times. Remove pets, birds, and fish bowls before spraying.

**CAUTION:** Keep out of reach of children  
**HARMFUL IF SWALLOWED**
