

DIRECTIONS FOR USE:

Initial Dose: 1 gallon **Algaecide Concentrate** to 50,000 gallons of water.

Maintenance Dose: 1 quart **Algaecide Concentrate** to 50,000 gallons of water.

Initial dose is used when filling pool at beginning of swimming season. If pool has visible algae growth, treat with initial dose. Vacuum pool after 24 hours to remove algae debris. If visible algae are still present or re-appear, repeat this treatment procedure as necessary. When pool is free of visible algae, use the recommended maintenance dose.

Maintenance dose should be added at 3-5 day intervals. If high temperatures prevail or pool has unusually heavy use, add maintenance dose more frequently.

If make-up water is added at the rate of more than 10% per week of pool capacity, add 1 quart of **Algaecide Concentrate** for each 10,000 gallons of fresh make-up water added per week.

When swimming season is over, add 1 gallon of **Algaecide Concentrate** to 50,000 gallons of water in treating water left in pool. This dose helps provide a measure of control of algae growth during the winter months. This treatment will also help the servicing of the pool before it is returned to use the following season.

FISH AND/OR WILDLIFE PRECAUTIONS

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds or public waters. Apply this product only as specified on this label.

HAND SOAPS

- Coconut Oil Powder
- Honey Cream
- Waterless-Blue Devil

DISINFECTANTS

- Lemon-0-10
- Lemon 44

DEODORANTS

- 24-oz. Wall Blocks
- 4-oz. Urinal Cakes
- Clip on Commode Box
- Cinematic Spray
- Concentrated Pine

INSECTICIDES

- Noxemnow
- Buggan
- Fly Kill
- Dav-O-Life Fluid

POWDERS

- Laundry Powders
- LWD W/Brightner

ALGAECIDE CONCENTRATE

Concentrated Swimming Pool Algaecide
Keeps Pool Water Clear and Free
of Visible Algae
Controls Algae Slimes

ACTIVE INGREDIENTS:

- n-Alkyl (60% C₁₄, 30% C₁₆, 5% C₁₂, 5% C₁₈) dimethyl benzyl ammonium chloride: 5%
- n-Alkyl (68% C₁₂, 32% C₁₄) dimethyl ethylbenzyl ammonium chlorides: 5%
- INERT INGREDIENTS:** 90%
- 100%**

DANGER

Keep Out of Reach of Children.
See other warnings on side panel.

EPA Reg. No. 3160-40

FLOOR WAXES & FINISHES

- Dav-O-Lok Floor Finish
- Hard Grip Floor Finish
- Grip-Tite Floor Finish
- Plastic Glass Wax U.L.
- Hi Shine Wax
- Hi Lustre Floor Finish

LIQUID CLEANERS

- Lemon-0-10
- D & W Concentrate
- Dav-O-Lok Remover
- Gone Wax Remover

- Drain Opener

AEROSOL BOMBS

- 24-oz. 16-oz. 12-oz.
- Insect Bombs
- Deodorant Bombs
- Glass Cleaner Bombs

SWIMMING POOL CHEMICALS

When **Algaecide Concentrate** is used as directed, it will kill and prevent development of *Chlorella pyrenoidosa* (green), *Phormidium inundatum* (black algae), *Phormidium retzii* (Square D algae), *Lyngba versicolor* (blue-green) and other swimming pool algae.

Algaecide Concentrate is compatible with most commonly used swimming pool chemicals, but should not be mixed with soap or other cleaners, or premixed with other water-treating chemicals. **Algaecide Concentrate** works best when added by itself directly to pool water. **Algaecide Concentrate** at use dilution is non-corrosive to inanimate surfaces.

DANGER

Keep Out of Reach of Children. Corrosive, causes severe eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield, and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash all contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Call a physician.

Rinse empty container thoroughly with water and discard.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.
