AERO-MASTER FOGGING INSECTICIDE

DIRECTIONS

For best results close all openings and turn off air conditioning and ventilating systems. Gas flames, pilot lights and other sources of open flames should be extinguished. After Dispenser has finished operation, allow fog to completely settle before opening area.

FLIES, MOSQUITOES, GNATS and FLYING MOTHS are killed almost immediately upon contact. Thoroughly fog area at the rate of 1 oz. per 1,000 cubic feet, and for maximum control keep area closed until fog has completely settled.

COCKROACHES, SILVERFISH and GRANARY WEEVIL in warehouses, mills and stores can be killed only on direct contact in their exposed stages. Spray thoroughly into cracks, crevices and other places where insects may be harbored in order to contact as many as possible. Follow with a complete fogging of the area at the rate of 2 oz. per 1,000 cu. ft. Repeat application as necessary.

MANUFACTURED BY:

AERO-MASTER, INC.

Aero-Master

FOGGING

INSECTICIDE

ACTIVE INGREDIENTS 100%

PETROLEUM OILS	98.866
TECHNICAL PIPERONYL BUTOXIDE	810
PYRETHRINS	324

Equivalent to: 548 (butylcarbityl) 16-propylpiperonyl ether and 1621 related compounds.

CAUTION

Keep out of reach of children.
See side panel for other cautions.
Do not re-use container. Destroy when empty.

AERO-MASTER FOGGING INSECTICIDE

Recommended especially for use in the AERO-MASTER fogging machine.

Recommended for food processing plants, dairies, supermarkets, restaurants, clothing stores, warehouses, hospitals and schools.

CAUTION

Foods should be removed or covered during treatment. All food processing surfaces should be covered during treatment or thoroughly cleaned before use. When using the product in these areas, apply only when the facility is not in operation.

Harmful if swallowed. Keep out of the reach of children.

Avoid exposure to the fog. If operator is directly exposed to the fog, he should wear a mask. Do not remain in enclosed treated areas. Ventilate the area after treatment is completed.

Remove pets, fish and birds from areas to be treated.
