

Vita Plus Mange Wet Treatment is designed for dilution with water to form an emulsion suitable for spraying beef cattle, hogs and sheep for the treatment of sarcoptic mange.

ACTIVE INGREDIENTS:

Xylene	90%
Gamma Isomer of Benzene hexachloride from Lindane	4%

INERT INGREDIENTS	6%
	100%

DIRECTIONS: Mix one pint of Vita Plus Mange Wet to ten gallons of water, to use as a spray.

Mix 2/3 pint of Vita Plus Mange Wet to ten gallons of water, to use as a dip.

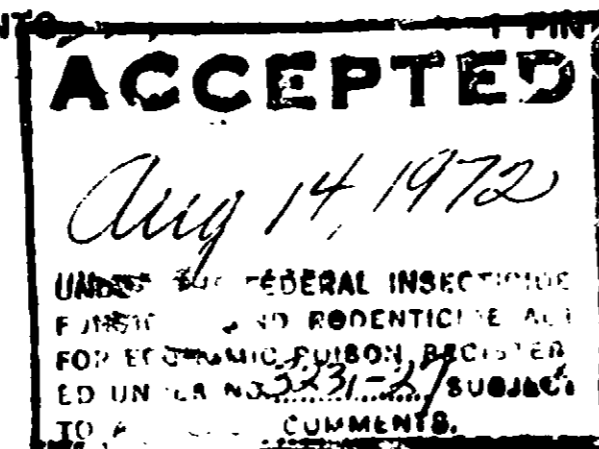

Treatment may be repeated as needed, at intervals of not less than one week.

Sarcoptic Mange Control in Hogs and Beef Cattle: Spray entire animal's body, using one quart of spray solution per 100 lbs. of body weight.

Ticks and Lice Control in Hogs and Beef Cattle: Treat entire animal, giving particular attention to infested areas.

SHEEP: Apply 2 gallons of spray mixture per adult animal, at about 400 lbs. pressure, for sarcoptic mange and sheep ticks. Use dip mixture to dip animals.

CAUTION

May cause irritation of skin and eyes. May be absorbed through skin if in solution. In case of skin contact wash with soap and water. For eyes, flush with water and get prompt medical attention. Avoid inhaling vapor, or mist from spray. Avoid contamination of feed or foodstuffs. Do not apply where there is danger of toxic residue, or residue odor (or taste) remaining in foodstuffs or edible portion of treated crops. Harmful if swallowed.

Do not treat animals under three months of age. Do not treat sows within 2 weeks of farrowing nor for at least 3 weeks thereafter; avoid treating animals in cold stormy weather. Avoid treating overheated or sick animals. If it is necessary to treat calves between 3 and 6 months of age, only a spray should be used.

Do not spray animals within 30 days of slaughter or dip within 60 days of slaughter.

Do Not Use On Dairy Animals

DO NOT REUSE CONTAINER

DESTROY CONTAINER WHEN EMPTY.

WARNING—FLAMMABLE!
KEEP AWAY FROM HEAT OR OPEN FLAME.
