

(Bag Copy: PAX 400 3 Year Crabgrass Control)

(rear panel cont'd)

RESEEDING: You can reseed established lawns and apply this product the same day.

WATERING: Do not water for 12 hours after the material has been washed off grass blades, then resume normal watering practice.

RAKING: After application any deep raking, digging, or disturbing the soil surface may impair the effectiveness of the product. Surface raking of leaves and foreign objects is permissible. After power-raking, aerification or the application of chemicals to your lawn, wait one week before applying PAX Crabgrass Control.

SOIL CONDITIONER: After several waterings, white granules may be seen on the soil surface. These granules are not harmful to turf, but are excellent soil conditioners.

PERPETUAL CONTROL: Control can be maintained by a yearly application at one-third rate or by making a full-rate reapplication every third year.

DO NOT USE ON DICHONDRA LAWNS

PAX CRABGRASS CONTROL GUARANTEE CERTIFICATE
