

CRABGRASS CONTROL

FOR USE ON ALL BLADEGRASS LAWNS

CAUTION: May injure fine-bladed fescues and bentgrass. DO NOT USE ON DICHONDRA.

WHEN TO APPLY

Super PAX Crabgrass Control is a pre-emergence control. It must be applied prior to crabgrass seed germination. The three-way action of Super PAX Crabgrass Control gives your lawn the early feeding it needs as well as controlling certain lawn insects.

HOW TO APPLY FOR A BETTER LAWN:

1 Determine sq. ft. area to be covered (for example 40 x 50 ft.). One 14 lb. bag covers 2000 sq. ft. Super PAX will not burn when applied at recommended rate.

2 Set spreader as recommended below. Fill spreader where spilled material will not fall on lawn. Shake spreader to settle material. Make application in two crisscross coverages as illustrated. Spreader settings below are for crisscross application.

3 Immediately after application wash Super PAX Crabgrass Control off the foliage with a medium spray from a hand-held nozzle. Sprinkling systems and stationary sprinklers are less satisfactory. Do not water lawn for 12 hours after washing in, then resume normal watering practice.

SUGGESTED SPREADER SETTINGS

Spreading rate may vary with the type, model, and condition of the spreader. Check your spreader by a trial over a known-size area. (14 lb. bag covers 2000 sq. ft.).

Lawn Beauty		Scott		Jackson		Modern		Central		Sears	
MODEL	SETTING	MODEL	SETTING	MODEL	SETTING	MODEL	SETTING	MODEL	SETTING	MODEL	SETTING
18-57	7 1/4	35-8	7 1/2	18 in.	6 3/4	18 in.	6 3/4	20 in.	8	452-19191	6 3/4
		35-3	7								

SETTINGS: Above settings are for crisscross application. If your spreader is not included above, set spreader opening at lowest setting which gives even flow, usually about 1/2 open. Spread in one direction and then crisscross. Continue crisscrossing until proper amount is applied. Broadcast spreaders are not recommended.

SOME COMMON WEEDS CONTROLLED

annual bluegrass
barnyard grass

stinkgrass
Texas millet
witchgrass
Wright groundcherry

NOTICES

MOWING:

After application do not mow lawn for 24 hours.

SEEDING:

If spring seeding is desired, apply seed as early as possible. Wait until new grass has been mowed twice before applying Super PAX.

After an application of this product wait 60 days before reseeding. APPLY TO ESTABLISHED LAWNS ONLY.

RAKING:

Complete any planned raking or digging of the lawn before applying Super PAX. Disturbing the soil surface after application may lessen the effectiveness of the product.

GUARANTEE: Manufacturer makes no express warranties of any kind, except to conform to the promises and affirmation of facts made on the label. The warranty of merchantability, all other implied warranties and liability of the manufacturer without fault are expressly disclaimed. Buyer assumes all risk of personal injury or damage to property, except for negligent mislabeling of the product. All claims must be presented to Manufacturer in writing within thirty days from the date a breach is discovered and an action thereon must be commenced within one year after the cause of action has accrued.
