PAX[®] total[®] for lawns

ACTIVE INGREDIENTS

Methyl 1,3-propylenediamine salt of 2,4-dichlorophenoxyacetic acid*	0.24%
2,4-dichlorophenoxyacetic acid*	0.16%
Dimethylamine salt of 2-(2-methyl-4-chlorophenoxy) propionic acid**	0.49%
Dimethyl tetrachloroterephthalate***	2.87%
INERT INGREDIENTS	96.24%
TOTAL INGREDIENTS	100.00%

*2,4-dichlorophenoxyacetic acid equivalent 0.30%
 *Use as a herbicide patented under U.S. Patent No. 2,900,411
 **Isomer Specific by ADAC Method
 **Equivalent to 0.41% of 2-(2-methyl-4-chlorophenoxy) propionic acid
 ***Use as a pre-emergent herbicide patented under U.S. Patent No. 2,932,634

GUARANTEED FERTILIZER

ANALYSIS

Total Nitrogen (N)	10.0%
1.3% chemical nitrogen	
8.7% urea nitrogen	
Available Phosphoric Acid (P ₂ O ₅)	6.0%
Soluble Potash (K ₂ O)	4.0%
Iron (Fe)	0.1%
From urea, ammonium phosphate, borate of sodium and iron sulfate.

PAX total for lawns

PAX total for lawns

PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS
CAUTION
 Avoid contact with skin, eyes, or clothing. Avoid breathing dust. Wash thoroughly after handling. Keep children and pets off treated area until product has been watered in and allowed to dry.
STATEMENT OF PRACTICAL TREATMENT
 In case of contact, wash skin with soap and water, for eyes flush with water for 15 minutes and get medical attention.
ENVIRONMENTAL HAZARDS
 Do not apply directly to water. Do not apply when weather conditions favor drift from target area. Do not contaminate water by cleaning of equipment or disposal of wastes.

DIRECTIONS FOR USE
 It is a violation of federal law to use this product in a manner inconsistent with its labeling.

WHEN TO APPLY
 For use on all broad grass lawns. **DO NOT USE ON THESE GRASSES:** St. Augustine, Tall green and other finebladed Bermudas, Bentgrass, Carpetgrass, and Dichondra.

To prevent crabgrass, foxtail, common chickweed, johnson grass, purslane, and other susceptible weed seeds from growing, apply PAX TOTAL in late winter, or in spring.

Apply to lawn when foliage is moist from dew, rain, or sprinkling. A repeat application in four weeks will assure best results on stubborn plants. To kill existing broadleaf weeds, such as dandelions, plantain, buckhorn, shepherd's purse, clover, etc. In late fall, apply PAX TOTAL any time weeds are actively growing. Be sure weed leaves are moist before application.

HOW TO APPLY
 For maximum effectiveness water lawn thoroughly one day before application. Determine square foot area to be covered, measure if necessary. (For example, 40' x 50' = 2,000 sq ft.) One 16 lb. bag covers 2,000 sq. ft. PAX TOTAL will not burn when applied at recommended rate. Before spreading PAX TOTAL, moisten the lawn with a fine spray or sprinkler system. Do not allow water to puddle or flood. The moist lawn insures maximum effectiveness of PAX TOTAL. After application do not water for 24 hours, then resume normal watering practice. Set fertilizer spreader as suggested below. For best results, use a crisscross pattern. Spreader settings below are for a crisscross pattern.

SUMMER APPLICATIONS: Water lawn thoroughly the day before application. Do not apply on days when the temperatures are 85 degrees or above.

COMMON WEEDS KILLED

Black Medic	Finch	Redroot
Buckhorn	Ground Ivy	Shepherd's Purse
Carpetweed	Henbit	Sweet
Chickweed	Knotweed	Speedwell
Clover	Lambquarters	Spotted Spurge
Dandelion	Pigweed	Stickwort
English Daisy	Plantain	Tarweed
	Purslane	

COMMON WEEDS PREVENTED

Barren Grass	Panicum Sp.
Crabgrass	Spotted Spurge
Foxtail	Stinkgrass
Goatgrass	Witchgrass
Johnson Grass	

SPREADER SETTING

MAKE & MODEL	SETTING
Pax	7
Sears	7
Central	7
Scott	6
Ortho	7
Modern	3
Banding	7
Jackson	16

Spreading rate may vary with the age, model, and condition of the spreader. Check your spreader by a trial over a known-size area (16 lb. bag covers 2,000 sq. ft.) The above settings are for crisscross application. If your spreader is not included above, set spreader opening at lowest setting which gives even flow, usually about 1/2" open. Spread in one direction and then crisscross until proper amount is applied. Broadcast spreaders are not recommended.

WATERING
 After application do not water or mow lawn for 24 hours, then resume normal watering practice.

SEEDING
 If spring seeding is desired, apply seed as early as possible, and wait until new grass has been mowed twice before applying PAX TOTAL. After an application of this product wait 60 days before reseeding.

RAKING
 Complete any planned raking or digging of the lawn before you apply PAX TOTAL. Disturbing the soil surface after the application may lessen the effectiveness of the product.

SHRUBS AND FLOWERS
 Avoid making applications on flowers, shrubs, or other ornamental plantings. Avoid application on a windy day.

HEAT AND HUMIDITY
 Succulent, tender grass may be discolored temporarily by applications during periods of high humidity and heat.

STORAGE AND DISPOSAL
 Keep away from foods, feedstuffs, and domestic water supplies. Keep container closed. Store partially used container in a locked storage area. Do not reuse empty container. Wrap empty container in several layers of newspaper and discard in trash container.

NOTICE
 Seller makes no warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
