12001 West 1st Street
Seattle, Wash. 98148

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

The above information was reviewed and found to be in accordance with the requirements of the Act and the regulations thereunder. The pesticide is hereby registered under the Act and the regulations thereunder. The registration is effective as of the date of this notice, July 13, 1977.

CRABGRASS CONTROL WITH BETASAN

CRABGRASS CONTROL

11-2-2

*PREVENTS HAIRY & SMOOTH CRABGRASS

*PREVENTS BARNYARDGRASS

*PREVENTS HENBIT (deadnettle)

*PREVENTS GOOSEGRASS

CAUTION: KEEP OUT OF REACH OF CHILDREN

Avoid contact with skin, eyes, or clothing. Harmful if swallowed. Avoid contamination of food and foodstuffs. Wash thoroughly after use. Do not breathe dust. Keep children and pets off treated areas until material is watered in lawn and allowed to dry. This product is toxic to fish. Keep out of lakes, streams or ponds. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label. Do not reuse container. Destroy when empty.

ACTIVE INGREDIENT:
 S-(O,O)-Diisopropyl phosphorodithioate ester of N-(2-mercaptoethyl) benzenesulfonamide
INERT INGREDIENTS:

3.28%
 96.72%
 100.00%

U. S. Patent No. 3,205,253. Use as a pre-emergent control.

GUARANTEED FERTILIZER ANALYSIS:
 Total Nitrogen (N) 11.0%
 1.3% Ammoniacal nitrogen
 9.7% Urea nitrogen
 Available Phosphoric Acid (P₂O₅) 2.0%
 Soluble Potash (K₂O) 2.0%
INERT INGREDIENTS: 85.0%

Derived from ammonium sulfate, ammonium phosphate, urea, and muriate of potash. Acidity equivalent equal to 500 lbs. of calcium carbonate per ton.

WITH BETASAN**

CRABGRASS CONTROL WITH BETASAN

FOR USE ON ALL LAWNS

A selective herbicide for pre-emergence control of crabgrass and annual bluegrass in turf, ornamentals and ground covers, and for other annual weeds as listed below.

WHEN TO APPLY

Application must precede emergence of weeds from the soil. Crabgrass will emerge from the soil from four to six weeks before it is visible above lawn sod. Apply at recommended rate any time from September or October through early spring for spring and summer control. Late spring applications must be made prior to crabgrass emergence.

In southern or western states and where germination of crabgrass, annual bluegrass, and other weeds extends into the late summer and early fall, a second application at the recommended rates should be made four to five months after the initial application.

For control of annual bluegrass and other annual weeds, apply at the recommended rate before weeds emerge from the soil.

HOW TO APPLY FOR A BETTER LAWN:

- 1** Determine sq. ft. area to be covered (for example 40 x 50 ft.). One 14 lb. bag covers 2000 sq. ft. Super PAX will not burn when applied at recommended rate.
- 2** Set spreader as recommended below. Fill spreader where spilled material will not fall on lawn. Shake spreader to settle material. Make application in two crisscross coverages as illustrated. Spreader settings below are for crisscross application.
- 3** Apply to well established lawns only. Immediately after spreading, wash material off the grass blades with the medium spray from a handheld nozzle. Sprinkling systems and stationary sprinklers are not satisfactory. Wait at least 24 hours before resuming normal watering practice.

SUGGESTED SPREADER SETTINGS

Spreading rate may vary with the age, model, and condition of the spreader. Check your spreader by a trial over a known-size area. (14 lb. bag covers 2000 sq. ft.).

Lawn Beauty		Scott		Jackson		Modern		Control		Sears	
MODEL	SETTING	MODEL	SETTING	MODEL	SETTING	MODEL	SETTING	MODEL	SETTING	MODEL	SETTING
18-57	7 3/4	35-B	7 1/2	18 in.	6 3/4	18 in.	6 3/4	20 in.	8	452-1919	6 3/4
		35-C	7								

SETTINGS: Above settings are for crisscross application. If your spreader is not included above, set spreader opening at lowest setting which gives even flow, usually about 1/2 open. Spread in one direction and then crisscross. Continue crisscrossing until proper amount is applied. Broadcast spreaders are not recommended.

WEEDS CONTROLLED

- Smooth crabgrass
- Hairy crabgrass
- Goosegrass
- Redroot pigweed
- Barnyardgrass
- Lambquarters
- Hunter (deadnettle)
- * Annual Bluegrass (Poa annua)
- Shepherd's purse

*For control of annual bluegrass and other annual weeds, apply at recommended rate to cover 1600 sq. ft.

NOTICES

SEEDING: Do not reseed bladegrass lawns within 4 months after application. Product can be applied to dichondra lawns at time of seeding. It will not harm nor inhibit dichondra seed germination. Do not apply to newly seeded lawns.

RAKING: Remove leaves, dead or tall grass, and other debris before applying to turf areas. Any weeds present around ornamentals must be removed or worked into the soil before application. Do not apply peat moss before application to lawn, or ground covers.

SOIL CONDITIONER: After several waterings, white granules may still be seen on soil surface. These granules are not harmful to turf, but are actually excellent soil conditioners.

GUARANTEE: Manufacturer guarantees this product to give results as outlined on this bag or the purchaser may get his money refunded by the manufacturer. No other express warranties of any kind are made, except to conform to the promises and affirmation of facts made on the label. The warranty of merchantability, all other implied warranties and liability of the manufacturer without fault are expressly disclaimed. Buyer assumes all risk of personal injury or damage to property, except for the negligent mis-labeling of the product. All claims must be presented to manufacturer in writing, within thirty days from the date a breach is discovered and an action thereon must be commenced within one year after the cause of action has accrued.
