### MESH TEST

NOT LESS THAN 93% PASSING THRU A  
325 MESH SCREEN

**Caution:** Keep out of reach of children

READ ENTIRE LABEL, Use Strictly in Accordance With Label  
Cautions, Warnings and Directions.

### DIRECTIONS

CITRUS: (Grapefruit, Lemons, Limes, Oranges, Tangelos  
and Tangerines). Rust Mite—Use 12 to 14½ pounds per tree  
depending on size. Apply when air is calm and leaves are  
covered with dew, preferably at night.

PEANUTS. *Early and Late Leaf Spot Disease*—Use 20 to 25  
pounds per acre at 7 to 10-day intervals or as necessary. Begin  
dusting when diseases first appear and continue to within one  
month of harvest.

PEACHES: *Brown Rot, Powdery Mildew, Scab*—25 to 45  
lbs. per acre. Make applications during pink, petal fall and  
cover spray periods. Also as ripening of fruit approaches for  
Brown Rot control.

APPLES: *Apple Scab, Powdery Mildew*—25 to 45 lbs. per  
acre. Dust thoroughly between periods of rainfall. Repeat as  
necessary to cover new foliage growth during pink, petal  
fall and cover spray periods.

CAUTION: Some fruits and other plants are susceptible to  
injury from sulphur under certain climatic conditions. The  
user is advised not to use sulphur on any crop unless local use  
has proven that sulphur is safe in that locality.

During periods of high temperature, sulphur may burn foliage  
and fruit. Do not make sulphur applications at excessively  
high temperatures. Do not use Standard Brand Dusting  
Sulphur within 3 weeks after oil application.

Do not re-use container. Destroy by burving in a safe place  
away from water supplies. Do not burn.

NOTICE: Seller warrants that the product conforms to the material description,  
and is reasonably fit for the purpose stated on the label when used in accor-  
dance with directions under normal conditions of use, but neither this warranty  
nor any other warranty of merchantability or fitness for a particular purpose,  
express or implied, extends to the use, storage or handling of this product  
contrary to label instructions, or under abnormal conditions, or under conditions  
not reasonably foreseeable to seller, and buyer assumes the risk of any such  
use. These risks include, but are not limited to, damage to plants, crops and  
animals to which the material is applied, failure to control pests, damage  
caused by drift to other plants or crops, and personal injury.
