

Fungi-Sperse®

NET CONTENTS 5 G

DIRECTIONS FOR USE

Use of this material in a manner other than in accordance with this label may cause serious plant, crop, or personal injury, excessive residues, unsatisfactory control or other unintended consequences.

PEANUTS—For the prevention of *Cercospora Leaf Spot* begin applications of 2½ gallons of FUNGI-SPERSE® with Calcium Sulfate (MAGI-CAL® added) mixed in 10 to 20 gallons of water* to cover one acre at early bloom stage (approximately 6 weeks after planting). Repeat at 7 to 10-day intervals until a minimum of at least 5 applications have been made.

MAGI-CAL® contains calcium which supplements your regular landplaster practice.

*The amount of water used depends on the type of equipment used.

Consult your State Agricultural Experiment Station or State Extension Service Specialist for complete details on the peanut dust and spraying program best suited to your local conditions.

with Calcium Sulfate (MAGI-CAL® added)

ACTIVE INGREDIENTS, not less than:

Sulphur	19.50 %
Basic Copper Sulfate (Copper as metallic 86%)	1.63 %

INERT INGREDIENTS, not more than 78.87 %

TOTAL 100.00 %

Calcium sulfate 24.4%

CONTAINS 2.4 pounds Sulphur; .2002 pounds Basic Copper Sulfate, 3.0 pounds Calcium Sulfate (MAGI-CAL®) per gallon.

FUNGI-SPERSE® is a registered trademark of Standard Spray and Chemical Company for premium grade insecticides and fungicides.

CAUTION

Pat. Pending

KEEP OUT OF REACH OF CHILDREN

Harmful if swallowed. Avoid breathing spray mist. May cause irritation of nose, throat or skin. Avoid contact with eyes, skin and clothing. Do not contaminate feed and foodstuffs.

Do not apply to any area not specified on label.

Do not reuse empty container. Wash thoroughly with water and detergent.

Discard in a safe place.

COLUMBIA, ALA.

DIRECTIONS FOR MIX BEFORE USING, STIR UNTIL

Pour recommended amount in filled spray tank. Keep agitator during filling and spraying operation. NOT ALLOW MIXTURE TO SETTLE. Be sure to maintain agitation will cause FUNGI-SPERSE® to settle and may need additional stirring to redisperse.

The strong adhesive properties of FUNGI-SPERSE® act as a sticker on the plant. This sticking characteristic necessitates flushing of equipment with water at the end of each day's use. Sulphur in any form is a sticky material. TO REDUCE THE STICKING EQUIPMENT SHOULD BE FLUSHED.

NOTICE: Seller warrants that the product conforms to the description and is reasonably fit for the use intended on the label when used in accordance with directions. This warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use, storage, handling of this product contrary to label instructions, conditions, or under conditions not reasonably foreseeable by the seller, and buyer assumes the risk of any damage or injury. Risks include, but are not limited to damage to crops and animals to which the material is applied. Control pests, damage caused by drift to other crops and personal injury. EPA Reg.

Pour recommended amount into partially filled spray tank. Keep agitator running during filling and spraying operations. DO NOT ALLOW MIXTURE TO STAND. Failure to maintain agitation will cause FUNGI-SPERSE® to settle and may necessitate manual stirring to redisperse.

The strong adhesive properties of FUNGI-SPERSE® act as a sticker on the plant, and this sticking characteristic necessitates the flushing of equipment with water after each day's use. Sulphur in any form is a corrosive material. TO REDUCE THE EFFECT, EQUIPMENT SHOULD BE FLUSHED DAILY.

NOTICE: Seller warrants that the product conforms to its chemical description and is reasonably fit for the purpose stated on the label when used in accordance with directions under normal conditions of use, but neither this warranty nor any other warranty of merchantability or fitness for a particular purpose, express or implied, extends to the use, storage or handling of this product contrary to label instructions, or under abnormal conditions, or under conditions not reasonably foreseeable to seller, and buyer assumes the risk of any such use. These risks include, but are not limited to damage to plants, crops and animals to which the material is applied, failure to control pests, damage caused by drift to other plants or crops, and personal injury.
