

## DIRECTIONS

Place a small amount of the powder in a shallow pan or tray. Scatter it in paths, along walls, and in other places where rats are likely to travel. The powder will be taken up by the rats and will kill them.

Do not breathe the powder. Do not get it on your hands or clothes. If you get it on your hands, wash them with soap and water.

Keep this powder out of the reach of children. Do not use it in places where people live or work.
