DIRECTIONS: Pull tab, tear hole in inner bag; bait feeds automatically. Use one or more packages of Mouse-Prufe, placing them wherever you see signs of mice. Place next to walls, under tables, in corners, near stored goods, etc. Preferred placement is in darker, secluded areas since mice seldom feed in the open. If bait is consumed before mice have stopped feeding, replace with new packages at once. Packages not touched after 3 days should be moved to a new location. Evidence of control occurs in 5 days; continue baiting for 15 days.

CLEAN, EASY TO USE NET WT. 2 OZ.

CAUTION: Keep out of the reach of children. See other caution on side
