FINISHED LABELING

d-CON kills roaches fast...and when left undisturbed kills roaches up to 7 months

NEW CHILD GUARDIAN CAP
Keep out of the reach of children. As an extra measure of protection, this Child Guardian Cap helps prevent activation by children age 4 and under. To activate, just press button as you would any aerosol. Nothing to turn or twist.

Warpath combines Pyrethrin and Silica Gel in an exclusive formula that kills roaches—even resistant roaches. Sprays wet to kill fast on contact. Dries to a powder that keeps on killing roaches for up to 7 months when left undisturbed.

DIRECTIONS: SHAKE WELL BEFORE USING

Spray liberally into dark, out-of-the-way places where roaches hide and nest. Behind and under refrigerator, stove, radiators. Around pipes and heat ducts. Under sinks, inside attics, in storage areas. If roaches disturbed, repeat application. Avoid an about 10 or 12 inches from area to be sprayed. To insure liberal wetting and greater amount of roach killing powder when dried.

WARNING: Do not use under pressure. Do not use late. Do not use in high heat or open flame. Exposure to temperatures above 130°F may cause bursting. Never throw container into fire or incinerator. Do not use on plastic material (or similar composition material). Avoid use on exposed surfaces (e.g., wood paneling) that are not smooth, as spray may penetrate grooves and dry into a powder that may be irritating.

ACTIVE INGREDIENTS: Silica Gel 4.5%, Pyrethrin 0.1%, Piperonyl butoxide 1.0%

INERT INGREDIENTS: 94.4%

Equivalent 1.18, Methylal 1.6, propyl cellosolve, and 0.2% surfactant.
