**Professional Way
to Kill 17 kinds of bugs.**

- One can kills an entire room (up to 20' x 30' with 8' ceiling) with an automatic room fogging action.
- Kills 17 kinds of bugs in 4 hours.

Unique remote lock is designed so that you can continue use of the room while the automatic powerful insecticide sterilizes the entire room. Ingredients are superior because of mist that fills the entire room.

Used in homes, **FOUR/GONE** kills 17 kinds of bugs in 4 hours.

THE DOW CHEMICAL COMPANY
4800 West 12th Street, Midland, TX 79701
EPA Reg. No. 228-23-2A

**Professional Way
to Kill 17 kinds of bugs.**

FOUR/GONE kills insects as they fly or crawl around such out of the way places as high open areas, cathedral ceilings, attic, bedrooms, as well as under beds, baby cribs, mosquitoes and yellow jackets; exposed ants, earwigs, ticks, earwigs, spiders, house flies, gnats, bees, wasps, silverfish, waterbugs, adult fleas and beetles.

Our regular spray works the way **FOUR/GONE** does, automatically filling a whole area to clean out infestations. (For example, with push button sprayer you can get stung by trying to kill wasps in attic. **FOUR/GONE** kills while you're away.) And no regular spray kills earwigs, spiders, ticks, etc. **FOUR/GONE** kills the toughest kinds of bugs and kills them in entire rooms. You'll use **FOUR/GONE** every time you come up against a stubborn bug problem.

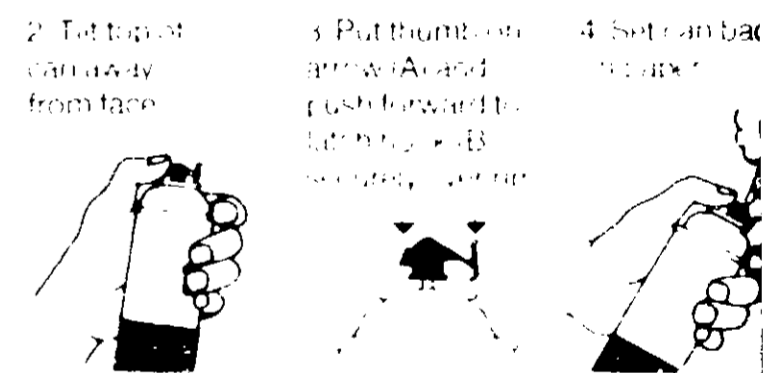

USE FOUR/GONE TO DE-BUG ANY AREA.
 • ROOMS • APARTMENTS • HOMES
 • OFFICES • BASEMENTS • CAMPGROUND
 • GARAGES • PET SLEEPING AREAS
 • STORAGE AREAS • CABINS

One aerosol can treats one room (up to 20' x 30' with 8' ceiling).

PREPARATION
 COVER asphalt tile, waxed wood floors and wax come in contact with the fog. (Newspapers may be used.)
 OPEN cupboards, closets, trunks and interior drawers.
 REMOVE pets and cover or remove fish tanks, cover foods, dishes, utensils, food handling equipment of cotton terrycloth.

CLOSE outside doors and windows. Turn off fan, extinguish open flames. (Pilot lights need not be extinguished.)

DIRECTIONS
 1. Set the can on a raised spot such as a table or chair. Turn the nozzle to the "ON" position. Push the button to spray the room.

5. Turn the nozzle to the "OFF" position. Turn the can away from face.

6. Keep room being treated closed for 4 hours.

7. After 4 hours, open all doors and windows, turn on fans, and let the treated area air for 30 minutes.

CAUTION: Contents are under pressure. Do not puncture, heat or open flame. Exposure to temperatures above 120°F. Foods should be removed or covered during treatment or use. Surfaces should be covered during treatment or use. When using the product in these areas, apply only in operation. Stay out of rooms being treated for 4 hours as directed.

ACTIVE INGREDIENT: Pyrethrin 0.5%, Piperonyl Butoxide 9.5%, Total 10.0%.

NET WEIGHT 19.0 OZ.

d-CON. fogger
