

STAFFEL'S RATS-N-MICE BAIT

DIRECTIONS FOR USE

For norway and roof rat control:

Four ounces of bait per station should be the minimum amount used. An uninterrupted supply should be maintained for at least 10 days.

For house mouse control:

Place tablespoonful amounts ($1\frac{1}{4}$ to $\frac{1}{2}$ ounce) of Staffel's Rats-N-Mice Bait at 8-12 foot intervals. An uninterrupted supply of bait should be maintained for at least 15 days.

Baits should be protected from rain, wind and sun. When using in bulk, be sure the bait is stored adequately in bulk. Place bait in locations where mice or rats feed, water or travel. Signs of current rat and mouse activity will be readily evident.

CAUTION: Treat all baits should be placed in locations not accessible to children, pets, wildlife and domestic animals, or in tamper proof bait boxes. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

Suggested bait station.
Nail or hinge protective
boards to walls as shown
in picture.

DO NOT REUSE CONTAINER — DESTROY WHEN EMPTY
