d-CON® professional formula Garden Power insect killer

As part of your gardening program, you invest money, time and effort to beautify your property. Continued use of d-CON Garden Power Insect Killer helps provide you with an effective tool for the care and maintenance of your investment.

POWER-NOZZLE DRIFTS FOG INTO PLANTS AND SHRUBS.

DIRECTIONS FOR USE — FOR OUTDOOR USE ONLY

1. Shake before using.
2. Point valve opening away from face and angle slightly downward. Press button down to activate fogger spray.
3. Spray plants from a distance of 4-6 feet, letting fog drift into area being treated. Cover all parts of plants lightly with spray.
4. For extra heavy growth, spray plants on both sides to assure complete coverage. Repeat treatment as needed.

For best results spray in the evening or on a cloudy day when air is calm or breeze is slight.

For use on insects listed below on small ornamental plants: Asters, Azaleas, Begonias, Chrysanthemums, Dahlias, Delphiniums, Gladioli, Irises, Marigolds, Petunias, Roses and Snapdragon.

Also for insects listed below on Evergreens, Shrubs, Vines and Small Ornamental Deciduous Trees:

Sucking Insects
Aphids, Leafhoppers, Spotted Mites, Thrips (exposed) and Lace Bugs.

Chewing Insects
Flea Beetles, Mexican Bean Beetles, Japanese Beetles, Southern Army Worm Larvae (caterpillars), Climbing Cutworms, Hornworms and Pine Sawflies.

Note: All insects listed above must be contacted directly with spray.

Also for Aphids, Leafhoppers, Climbing Cutworms on Tomatoes, For Aphids, Flea Beetles, Spotted and Striped Cucumber Beetles on Squash; For Imported Cabbage Worm and Larvae of the Diamond Back Moth on Cabbage — apply as described above, repeating the application at weekly intervals or as needed.
