(1) ORANGE-BLACK-10-401451

One can treats one unobstructed area up to 5000 cu. ft. (10' x 20' with 10' ceiling). Use additional units for remote rooms or where free flow of mist is not assured.

PREPARATION COVER asphalt tile, waxed wood floors and waxed furniture which may come in contact with the fog (Newspapers may be used) OPEN cupboards, closets, trunks and interior doors in area to be treated REMOVE pets and cover or remove fish tanks and bowls remove or cover loads, dishes, utensils and articles made of cotton Terry cloth CLOSE outside doors and windows. Turn off fans and air conditioners extinguish all open flames except pilot light

DIRECTIONS: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling

1 Set can on a raised spot such as a table, chair or stand at least six feet from pilot light. Spread several sheets of paper under can to cover area directly beneath container. Remove cover

6 Keep room being treated closed for 2 hours 7 After 2 hours open all doors and windows. Turn on air conditioners and fans. Let the treated area air for 30 minutes Repeat treatment in two weeks or as necessary

REPEAT TREATMENT IN TWO WEEKS OR AS NECESSARY PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION: Harmful if swallowed. Avoid inhalation of vapors. Avoid contact with skin, eyes, or clothing. Avoid contamination of food and feedstuffs. Do not use in commercial food processing, preparation, service, or storage areas in the home, cover or remove exposed food. Avoid contamination of cooking utensils and food preparation surfaces. Stay out of rooms being treated for two hours; ventilate the rooms as directed.

STATEMENT OF PRACTICAL TREATMENT If swallowed: Call a physician or Poison Control Center immediately. Drink one or two glasses of water. Do not induce vomiting or give anything by mouth to an unconscious person. If inhaled: Remove victim to fresh air. Apply artificial respiration if indicated. If on skin: Remove contaminated clothing and wash affected areas with soap and water. If in eyes: Flush eyes with plenty of water. Call a physician if irritation persists. If in Physique: This product contains a cholinesterase inhibitor. Atropine by injection is antidotal and should be administered only if signs of cholinesterase inhibition have appeared. 2-PAM is also antidotal and may be used in conjunction with atropine.

PHYSICAL AND CHEMICAL HAZARDS: Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130 F may cause bursting. DISPOSAL: Do not re-use empty container. Wrap container and put in trash collection.

d-CON. fourgone. Automatic Room Fogger formula IV

Helps Control Bug Build-Up. Kills 17 kinds of bugs in 2 hours.

One can fills an entire room (up to 20' x 20' with 10' ceiling) with an effective bug-killing fog. Empties automatically in minutes. Kills in 2 hours. The nozzle is designed so that spray will continue until entire contents are released. Used as directed, four gone will not harm drapes, upholstery fabrics, carpeting, bedspreads, clothing, linens, furniture, walls, floor tiles (rubber vinyl) ceilings, shades or blinds. Articles made of cotton Terry cloth however should be removed from the area to be treated. Four gone kills insects as they fly or crawl around such out of the way places as high open areas, cathedral ceilings, attics, basements, as well as rooms. Kills fleas, ticks, cockroaches, waterbugs, small flying moths, mosquitoes, yellow jackets, ants, earwigs, spiders, hornets, houseflies, gnats, bees, wasps, silverfish and crickets. To kill ticks and fleas: Destroy old pet bedding and replace. Treat dogs and cats with registered tick or flea product prior to re-entry. No regular spray works the way four gone does. Automatically fills a whole area with effective bug-killing fog to clean out infestation. Once you see how four gone kills the toughest kinds of bugs, and kills them in entire rooms, you'll use four gone every time you come up against a stubborn bug problem.

USE fourgone TO DE-BUG ANY OF THESE AREAS: ROOMS • APARTMENTS • HOMES • ATTICS • BASEMENTS • CAMPGERS • BOATS • GARAGES • CABINS • PET SLEEPING AREAS • HOUSEHOLD STORAGE AREAS • GROUND LEVEL CRAWL SPACES

ACTIVE INGREDIENTS: d-trans Allethrin (allyl homologue of Cyrenin I) .300%, Related compounds .023%, 3-Phenoxybenzyl d-cis and trans 2,2-dimethyl-3-(2-methylpropenyl) cyclopropanecarboxylate 191%, Other isomers .009%, 2,2-dichlorovinyl dimethyl phosphate 465%, Related compounds .035%, Petroleum distillate 13.454%. INERT INGREDIENTS 85.523% d-(cis, trans) phenothrin cis/trans isomer ratio max 25% (: ) cis; min. 75% (: ) trans From 5% (wt) of dichlorvos, technical (DOVP)

One can treat one unobstructed area up  
to 6000-cu. ft. (60' x 60' with 16' ceiling).  
Use additional units for remote rooms or  
where free flow of mist is not assured.

**PREPARATION**  
COVER asphalt tile, waxed wood floors and waxed furni-  
ture which may come in contact with the fog. (News-  
papers may be used.)  
OPEN cupboards, closets, trunks and interior doors in  
area to be treated.  
REMOVE pets and cover or remove fish tanks and bowls;  
remove or cover lamps, dishes, mantels and  
made of cotton terrycloth.  
CLOSE outside doors and windows; turn off fans and air  
conditioners; extinguish all open flames except pilot  
light.

**DIRECTIONS**  
It is a violation of Federal Law to use this product in a  
manner inconsistent with its labeling.  
1. Set can on a raised spot such as a table, chair or  
stand at least six feet from pilot light. Spread several  
sheets of paper under can to cover area directly beneath  
container. Remove cover.

6. Keep room being treated closed for 2 hours.  
7. After 2 hours, open all doors and windows; turn on air  
conditioners and fans. Let the treated area air for 30  
minutes.  
Repeat treatment in two weeks or as necessary.

**PRECAUTIONARY STATEMENTS  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS  
CAUTION:**

Harmful if swallowed. Avoid inhalation of vapors. Avoid  
contact with skin, eyes, or clothing. Avoid contamination  
of food and feedstuffs. Do not use in commercial food  
processing, preparation, service, or storage areas. In the  
home, cover or remove exposed food. Avoid contamina-  
tion of packing materials and food preparation surfaces.  
Stay out of rooms being treated for two hours; ventilate  
the rooms as directed.

**STATEMENT OF PRACTICAL TREATMENT**

**First Aid:** Call a physician or Poison Control Center  
immediately. Drink one or two glasses of water. Do not  
induce vomiting or give anything by mouth to an uncon-  
scious person. **Eye Irritation:** Remove victim to fresh air.  
Apply artificial tears if irritation is indicated. **On Skin:** Remove  
contaminated clothing and wash affected areas with soap  
and water. **On Face:** Wash eyes with plenty of water. Call  
a physician if irritation persists.

**Eye Irritation:** This product contains a short-  
acting anesthetic. Absorption by injection is sublethal and  
sublethal only if signs of convulsions have  
been reported. 2-PAM is also sublethal and may be used  
in conjunction with atropine.

**PHYSICAL AND CHEMICAL HAZARDS:** Contents  
under pressure. Do not use or store near heat or open

Dear Ms. Highley

Subject: Revised finished labels  
Dairy and Stock Spray  
EPA Registration No. 3624-140  
Your submission received March 26, 1985

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide and Rodenticide Act, as amended, is acceptable. It is noted that the word "Flammable" has been deleted from the PHYSICAL OR CHEMICAL HAZARDS section based upon the declared flash point of 125° F. for this product. A stamped copy of the label is enclosed for your records.

Sincerely yours,

George T. LaRocca  
Product Manager (15)  
Insecticide-Rodenticide Branch  
Registration Division (TB-767)
