INERT INGREDIENTS 99.50%

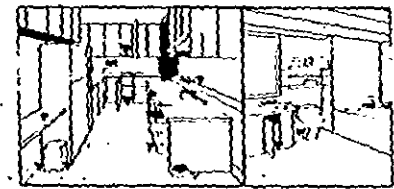

d-CON Money Back Guarantee (See Back Panel)

NET WT. 0.974 OZ.

d-STROY roach killing stations kill faster because of their special bait. Roaches crawl in, eat the bait, and crawl away to the same place when females carrying eggs eat the bait. Their eggs die before hatching. Laboratory tests prove d-STROY kills faster than other bait stations, and keeps killing for three months. The bait station's advanced design provides an effective barrier between you and its special bait, which only roaches can reach. d-STROY is non-contaminating and has no chemical smell.

DIRECTIONS FOR HOUSEHOLD USE
It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.
For effective roach killing, place all 12 bait stations at once.

1. Open pouch, remove d-STROY roach killing stations and break apart from plastic frame.
2. Place up to 12 roach killing stations (with white baiting frame) in areas where you have seen roaches. The baiting station shape of d-STROY allows it to be placed in corners.
3. Place 10 in the kitchen and 2 in the bathroom (see illustrations).
4. As d-STROY starts working, insects will be attracted to the bait and die.
5. Place d-STROY in the kitchen and bathroom (see illustrations) to kill roaches that come in from outside.
6. Replace d-STROY roach killing stations every 3 months or when effectiveness of material for continued product use begins to decline.

PRECAUTIONARY STATEMENTS:
CAUTION: May be harmful if swallowed. Avoid contact with skin and eyes.
STATEMENT OF PRACTICAL TREATMENT:
If SWALLOWED: Wash mouth out with water. Do not induce vomiting. If symptoms persist, call a physician.
STORAGE DISPOSAL:
Store in original container. Do not use if container is damaged. Do not use if the bag is torn or the material is exposed.

EFFECTIVENESS MONEY BACK GUARANTEE:
If you do not see roach killing results within 30 days, you may return the product for a full refund.
