BACK LABEL

d-CON Home Pest Control Killer keeps on working with residual action for weeks after it dries. Kills roaches, ants, fleas, ticks, and other insects listed. This product is well suited for use in home and non-food areas.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS.

CAUTION: Avoid contact with eyes, skin and clothing. Avoid breathing vapors or spray mist. Keep away from food, feed stuffs and domestic water supplies. Wash thoroughly after handling.

STATEMENT OF PRACTICAL TREATMENT

IF SWALLOWED: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.

IF ON SKIN: In case of contact, remove contaminated clothing and immediately wash skin with plenty of soap and water.

IF IN EYES: Remove contact lenses, flush with plenty of water.

NOTE TO PHYSICIAN: Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine only by injection is an antidote.

Do not apply sprays of this product in conduits, motor housings, junction and switch boxes or other electrical equipment because of possible shock hazard. Cover exposed food. Thoroughly wash dishes and food handling utensils with soap and water if they become contaminated by application of this product. Do not allow children or pets to contact treated surfaces until spray has dried. Remove pets and cover fish bowls (tanks) before spraying.

PHYSICAL HAZARDS

Do not use or store near heat or open flame. Do not store below 32°F.

FOR INDOOR USE ONLY

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USE. As a spot treatment to kill cockroaches, ants, clover mites, crickets, fire brats, silverfish, and spiders. Apply a coarse spray into cracks, around baseboards, behind and beneath cabinets refrigerators, stoves, sinks, around plumbing and other localized areas infested with insects. Spray surfaces until wet. Repeat as necessary, but not more often than one treatment every seven days.

BACK LABEL (continued)

For control of carpet beetles - apply along baseboards, edges of carpeting, under carpets, rugs and furniture, in closets and shelving where infestations occur or are suspected. Spray surfaces until wet. Repeat as necessary.

For control of fleas and brown dog ticks - apply to infested areas such as pet bedding and resting quarters, around baseboards, door frames and wall cracks. Spray surface until wet. Old pet beddings should be removed and replaced with clean, fresh bedding after treatment. DO NOT SPRAY DIRECTLY ON ANIMAL. For best results treat pets with a product registered for animal application to control the source of the infestation.

STORAGE AND DISPOSAL STATEMENT: Storage: Store in original container in areas inaccessible to small children. Disposal: Do not reuse empty container. Wrap and put in trash.

d-CON Home Pest Control Killer keeps on working with residual action for weeks after it dries. Kills roaches, ants, fleas, ticks, and other insects listed. This product is well suited for use in home and non food areas.

DIRECTIONS FOR USE: It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

SHAKE WELL BEFORE USING. For Spot Treatment Only

Apply as a coarse spray to localized areas where cockroaches (including strains resistant to other insecticides), ants, clover mites, crickets, termites, silverfish, and spiders are found or normally occur, including dark corners of rooms and closets, cracks and crevices in walls, along and behind baseboards, beneath and behind sinks, stoves, refrigerators and cabinets, around plumbing and other utility installations. For ants, apply to ant trails, also around doors and windows and wherever else these pests may find entrance. Note: A period of 4 to 7 days is normally required for maximum effect on cockroaches.

For control of carpet beetles, thoroughly apply as a spray for spot treatment along baseboards and edges of carpeting, under carpeting, rugs and furniture, in closets and on shelving, and wherever else these insects are seen or suspected.

For control of fleas and brown dog ticks, thoroughly apply as a spray for spot treatment to infested areas, such as pet beds and resting quarters, nearby cracks and crevices, along and behind baseboard, window and door frames and localized areas of floor and floor covering where these pests may be present. Old bedding of pets should be removed and replaced with clean, fresh bedding after treatment of pet areas. **DO NOT TREAT PETS WITH THIS PRODUCT.** To control the source of flea infestation, pets inhabiting the treated premises should be treated with a product registered for application to animals.

PESTS OUT-OF-DOORS

Fleas, mosquitoes. For outdoor use only as an aid in reducing annoyance from these insects. Spray outside surfaces of screens, doors, window frames or wherever these insects may enter the room. Repeat as necessary.

Ants, brown dog ticks, crickets, fleas and earwigs. For treatment of localized infestation of these insects in outdoor areas where there are weeds or bushy non-cropland areas, spray infested areas thoroughly. For ants, thoroughly wet trails and runways. Repeat application as infestations warrant and as reinfestations occur, but not more often than one treatment every seven days.
