

# Mouse Killing Station d-CON

## d-CON. Mouse Killing Station

### DIRECTIONS FOR USE:

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**USE RESTRICTIONS:** DO NOT USE THIS PRODUCT IN AREAS ACCESSIBLE TO CHILDREN, PETS, DOMESTIC ANIMALS, AND NONTARGET WILDLIFE. For control of house mice in and around homes, industrial, commercial, agricultural and public buildings. Do not place bait in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food.

### APPLICATION DIRECTIONS

1. Place d-CON Mouse Killing Station at points of mouse activity. Place along walls, in corners, and concealed places. Mice will enter more readily when the station is placed against a wall or other vertical surface.
2. Check Station after 3 days for signs of feeding (mouse droppings or consumption of block visible through transparent bottom). Stations not touched after 3 days should be moved to a new location where mouse activity is high.
3. One Station could be sufficient for a small domestic infestation. Where mice are active in more than one place and for large areas, use one Station for every 24 sq yards of floor space. Maintain an uninterrupted supply of fresh bait for 15 days or until signs of mouse activity cease.
4. Collect and dispose of all dead animals and unconsumed bait according to "Disposal" paragraph.
5. To prevent reinfestation, eliminate food, water and harborage as much as possible. Where a continuous source of infestation is present, establish a permanent bait program and replace Station(s) as needed.

THE d-CON COMPANY, INC.  
225 SUMMIT AVENUE, MONTVALE, NJ 07645  
EPA EST NO 3782 OH 1 ET REG NO 1482 79

**STORAGE AND DISPOSAL:**  
**STORAGE:** Store only in original container, in a dry place inaccessible to children and pets.  
**DISPOSAL:** Do not reuse empty container. Securely wrap in newspaper and discard in trash. Do not allow children to play with empty Station.

**NOTICE TO BUYER AND USER:**  
Seller warrants that this product conforms to the chemical description of the label and is reasonably fit for the purposes stated on the label when used in accordance with directions under normal conditions of use. This warranty does not extend to the use of this product contrary to label instructions, or under abnormal use conditions, or under conditions not reasonably foreseeable to Seller, and Buyer and User assume the risk of any such use. **SELLER DISCLAIMS ALL OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING ANY WARRANTY OF FITNESS OR MERCHANTABILITY. SELLER SHALL NOT BE LIABLE FOR CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT AND SELLER'S SOLE LIABILITY AND BUYER'S AND USER'S EXCLUSIVE REMEDY SHALL BE LIMITED TO THE REFUND OF THE PURCHASE PRICE.**

# d-CON<sup>®</sup> Contains enough bait to kill up to 10 mice Mouse Killing Station

- Ready for use
- No bait handling

**ACTIVE INGREDIENT:** Brodifacoum-3-[3-(4'-bromo-1,1'-biphenyl)-4-yl]-1,2,3,4-tetrahydro-1-naphthyl]-4-hydroxy-2H-1-benzopyran-2-one 0.005%  
Inert Ingredients 99.995%

**KEEP OUT OF REACH OF CHILDREN** TOTAL 100.000%

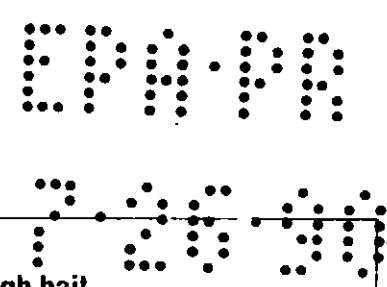

**CAUTION:** Harmful if swallowed. Read additional precautionary statements on side panel.

NET CONTENTS: 1/20 gm (0.7 OZ.) BAIT BAR

## d-CON Mouse Killing Station

Brodifacoum is protected by US patent nos 3957824 and 4035465 issued to Ward Blenkinsop and Co. Ltd

**BEST AVAILABLE COPY**

**PRECAUTIONARY STATEMENTS, HAZARDOUS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** Harmful if swallowed. Keep away from humans, domestic animals and pets. IF BAIT IS EATEN BY HUMANS, CALL A PHYSICIAN AT ONCE. For 24 hour emergency assistance call your local Poison Control Center. IF BAIT IS EATEN BY ANIMALS OR PETS, call your local veterinarian.

**NOTE TO PHYSICIAN OR VETERINARIAN:** This product may reduce the clotting ability of blood and cause hemorrhaging. If poisoning occurs, intramuscular and oral administration of Vitamin K<sub>1</sub> are indicated, as in poisoning from oral use of bishydroxy coumatin. For human cases, Vitamin K<sub>1</sub> is antidotal at doses of 10-20 mg (not mg/kg). For animal cases, Vitamin K<sub>1</sub> is antidotal at 2-5 mg/kg. Repeated doses may need to be given up to two weeks (based on monitoring of prothrombin time). In severe cases, blood transfusions may be necessary.

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish, birds and wildlife. This product can pose a secondary hazard to birds of prey and mammals. Keep out of any body of water.
