

U.S. ENVIRONMENTAL PROTECTION AGENCY

Office of Pesticide Programs  
Registration Division (7505C)  
1200 Pennsylvania Ave., N.W.  
Washington, D.C. 20460

EPA Reg. Number:

3282-88

Date of Issuance:

August 3, 2006

NOTICE OF PESTICIDE:

Registration  
 Reregistration  
(under FIFRA, as amended)

*306*  
*480*  
*5-797390*

Term of Issuance:

Conditional

Name of Pesticide Product:

d-Con® Bait Packs III

Name and Address of Registrant (include ZIP Code):

Reckitt Benckiser Inc.  
1655 Valley Road  
P.O. Box 943  
Wayne, NJ 07474-0943

Attention: Ms. Liane Jenkins

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

A. submit one (1) copy of final printed labeling, before you release the product for shipment, with the following change:

1. Modify the graphic submitted your labeling to avoid implying that this product will instantaneously control the pest species.

*DBP*  
Daniel B. Peacock, Biologist  
Insecticide-Rodenticide Branch  
Registration Division (7505C)

Date:

with COMMENTS  
in EPA Letter Dated

AUG 3 2006

Under the Federal Insecticide,  
Fungicide, and Rodenticide Act  
as amended, for the pesticide  
registered under EPA Reg. No.

**SATISFACTION GUARANTEED OR YOUR MONEY BACK 3282-88**

1.0 oz. Bait Pack - BACK Panel

**DIRECTIONS FOR USE**

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**READ THIS LABEL:** Read this entire label and follow all use directions and use precautions.

**IMPORTANT:** Do not expose children, pets, or other nontarget animals to rodenticides. To help prevent accidents:

1. Store product not in use in a location out of reach of children and pets.
2. Apply bait in locations out of reach of children, pets, domestic animals and nontarget wildlife, or in tamper-resistant bait stations. These stations must be resistant to destruction by children under six years of age and must be used in a manner that prevents such children from reaching into bait compartments and obtaining bait. If bait can be shaken from stations when they are lifted, units must be secured or otherwise immobilized. Even stronger bait stations are needed in areas open to hooved livestock, raccoons, bears, other potentially destructive animals, or in areas prone to vandalism.
3. Dispose of product container, and unused, spoiled, and unconsumed bait as specified on this label.

**USE RESTRICTIONS:**

This product may only be used to control house mice only in the sites identified below.

- In **URBAN AREAS**, this product may only be used in and around homes; in and around industrial, commercial and public buildings; and in transport vehicles (ships, trains, aircraft) and in and around related port or terminal buildings. All applications "around" buildings must be made in tamper-resistant bait stations placed along the walls or other external parts of buildings (e.g. doorways, ramps, loading docks) where mice might seek to gain entrance. Do not use in sewers.
- In **NON-URBAN AREAS**, this product may only be used inside of homes and agricultural buildings.

Do not place bait in areas where there is a possibility of contaminating food or surfaces that come in direct contact with food. Do not broadcast bait.

**1.0 oz. Bait Pack – Back Panel (Mice only)**

**SELECTION OF TREATMENT AREAS:** Determine areas where mice will most likely find and consume the bait. Generally, these are along walls, by gnawed openings, in or beside burrows, in corners and concealed places, between floors and walls, or in locations where rodents or signs of rodents have been seen. Remove as much alternative food as possible. Use tamper-resistant bait stations wherever necessary (see **"IMPORTANT:"**).

**APPLICATION DIRECTIONS:**

**To Control House Mice:** Use one bait per placement. Space placements at intervals of 8 to 12 feet. 2 bait packs may be used at points of extremely high mouse activity. Maintain a supply of fresh bait for at least 15 days. Check bait locations every 2 days for signs of feeding. Replenish bait if more than 1/2 of the original amount has been removed by rodents. If bait packs are not fed from for 5 consecutive days, relocate them to other places where rodent activity exists and where placements consistent with the requirements of this label can be made. Collect and dispose of all dead animals and leftover bait properly. To discourage reinfestation, limit sources of rodent food, water and harborage as much as possible. If reinfestation does occur, establish permanent bait stations and replenish as needed.

**1.0 oz. Bait Pack – Back Panel (Mice only)**

**PRECAUTIONARY STATEMENTS:  
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

**CAUTION:** May be harmful if swallowed. Keep away from humans, domestic animals, and pets. Wash hands after handling bait. Wear gloves if bait or dead animals may be handled.

<b>FIRST AID</b>	
Have this label with you when obtaining treatment advice.	
<b>IF SWALLOWED</b>	<ul style="list-style-type: none"><li>• Call a Poison Control Center or doctor immediately for treatment advice.</li><li>• Have person sip a glass of water if able to swallow. Do not induce vomiting until told to do so by a Poison Control Center or doctor.</li><li>• Do not give anything by mouth to an unconscious person.</li></ul>
<b>NOTE TO PHYSICIAN AND VETERINARIAN</b>	
Contains Difethialone, an anticoagulant. For humans or dogs that have ingested this product or have obvious poisoning symptoms (bleeding) or elevated prothrombin times, give Vitamin K1 by intramuscular or oral administration. Check prothrombin time every 3 days until values return to normal.	

**ENVIRONMENTAL HAZARDS:** This product is toxic to fish, birds and wildlife. Predatory and scavenging mammals and birds might be poisoned if they feed upon animals that have eaten the bait. Do not apply directly to water.

**STORAGE AND DISPOSAL**

**STORAGE:** Store in original container in a dry place inaccessible to children and pets.

**DISPOSAL:** If empty, do not reuse this container. Place in trash or offer for recycling if available. If partly filled, Call your local solid waste agency for disposal instructions. Never place unused products down any indoor or outdoor drains.

**NOTICE TO BUYER AND USER:** Buyer and User assume all responsibility for safety and risk associated with any use not in accordance with directions. TO THE EXTENT CONSISTENT WITH APPLICABLE LAW, SELLER SHALL NOT BE LIABLE FOR CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT AND SELLER'S SOLE LIABILITY AND BUYER'S AND USER'S EXCLUSIVE REMEDY SHALL BE LIMITED TO THE REFUND OF THE PURCHASE PRICE.
