David Swain, agent for
Reckitt Benckiser Inc.
Morris Corporate Center IV, 399 Interpace Parkway
Parsippany, NJ 07054

Subject: Label Notification per PRN 98-10 – Revise net contents, add a Spanish notice,
and marketing claims
Product Name: d-CON Bait Station XI
EPA Registration Number: 3282-102
Application Date: December 24, 2014
Decision Number: 497448

Dear Mr. Swain:

The Agency is in receipt of your Application for Pesticide Notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Registration Division (RD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The label submitted with the application has been stamped “Notification” and will be placed in our records.

If you have any questions, you may contact Gene Benbow at 703-347-0235 or via email at Benbow.Gene@epa.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Mark Suarez" with a stylized flourish at the end.

Mark Suarez, Product Manager 07
Invertebrate-Vertebrate Branch 3
Registration Division (7505P)
Office of Pesticide Programs

OUTER CARTON BACK LABEL

Important: For Directions for Use and First Aid instructions in Spanish, please call 1-866-648-1819

IMPORTANTE : Para instrucciones de uso y primeros auxilio en español por favor llame al 1-866-648-1819.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ THIS LABEL: Read this entire label and follow all use directions and use precautions. Use only for sites, pests, and application methods described on this label.

USE RESTRICTIONS: Use only to control house mice. This bait station may be used in and around (within 50 feet of) homes accessible to children and pets, consistent with all use restrictions and other requirements indicated on this label. Do not apply further than 50 feet away from home or building.

Do not place bait in areas where there is a possibility of contaminating food or surfaces that come into direct contact with food.

SELECTION OF TREATMENT AREAS:

Determine areas where house mice will most likely find and consume the bait. Generally, these are along walls, by gnawed openings, in corners and concealed places, or in locations where there are signs of house mice.

TO CONTROL HOUSE MICE:

1. Remove the bait station from the carton
2. Placement: Place along walls or in corners with the entrance holes exposed.

Place bait stations at 8- to 12- foot intervals in appropriate locations in infested areas, as specified on this label. Make sure that mouse entrance holes are exposed.

Maintain stations for a minimum of 15 days or as long as activity persists. Wearing gloves, replace bait in bait station if contents have been consumed, damaged, or if bait is exposed. If bait is not touched after 3 days, move station to a new location where mouse activity is evident. Wearing gloves, collect and dispose of all dead animals and leftover bait properly as specified on this label. To discourage reinfestation, limit sources of rodent food, water and harborage as much as possible. If reinfestation does occur, repeat treatment.

To (Load or) Refill {pictograms may be added to illustrate each step}

You will need both hands to open the station.

1. Find the latch on the underside of the station and the top button.
2. Using one hand, pull the bottom latch fully in the direction shown by the arrow with your index finger and fully press the button on top of the station with your thumb.
3. While still pulling on the bottom latch and pressing the top button, swing the window open with your other hand.
4. Wearing gloves, remove a new bait block from its (packaging) (wrapping).
5. Place the new bait block into the station ensuring that the peg goes through the hole in the bait block. Press block firmly into the station.
6. Close the station by swinging the window back into place until a click is heard.
7. Wash hands thoroughly.

PRECAUTIONARY STATEMENTS:

Hazards to Humans and Domestic Animals

CAUTION: Harmful if swallowed. Keep away from humans, domestic animals and pets. All handlers (including applicators) must wear gloves. Any person who retrieves carcasses, exposed bait, or bait station following application of this product must wear gloves.
