KILL

**ROACHES • ANTS
 AND MANY OTHER
 CRAWLING INSECTS**

COLONIAL RCS

CAUTION: KEEP OUT OF REACH OF CHILDREN
 SEE BACK PANEL FOR ADDITIONAL CAUTIONS

**READ DIRECTIONS AND PRECAUTIONS CAREFULLY.
 PRESSURIZED HOUSING - DO NOT OPEN.**

COLONIAL RCS contains the active ingredient diazinon, which is registered for use against a wide variety of insects and arachnids. It is effective against many common household pests, including roaches, ants, waterbugs, palmetto bugs, silverfish, scorpions, spiders, crickets, and many other crawling insects. It is also effective against brown dog ticks, flies, mosquitoes, wasps, hornets, moths, fleas, and chiggers. Colonial RCS is a contact insecticide and is most effective when sprayed directly on the insects. It is also effective when sprayed on surfaces where insects crawl. It is resistant to many common insecticides and is safe for use around children and pets when used as directed.

KILL
**ROACHES, ANTS,
 WATERBUGS,
 PALMETTO BUGS,
 SILVERFISH,
 SCORPIONS,
 SPIDERS,
 CRICKETS and
 many other
 crawling insects**

SPRAY SURFACES UNTIL WET. REPEAT AS NECESSARY

INDOORS: Spray baseboards, closets, door sills, cracks in floors, around water pipes, behind toilets, under sinks, stoves and refrigerators, behind and beneath cabinets and similar areas where these insects hide. Should infestation be excessive, repeat treatments as necessary.

**BROWN DOG
 TICKS**

INDOORS: Spray sleeping quarters and other areas where pets are in the habit of lying down. Allow sprayed area to dry and put fresh bedding in sleeping quarters before permitting use by pets. Do not spray directly on pets.

**FLIES,
 MOSQUITOES,
 WASPS,
 HORNETS,
 MOTHS and
 many other
 flying insects.**

OUTDOORS: Spray outside surfaces of screens, doors, window frames or wherever these insects enter. Also treat surfaces around light fixtures on porches, in garages and other places where these insects live or crawl. Do not spray on vegetation.

**FLEAS,
 CHIGGERS,
 ANTS, BROWN
 DOG TICKS**

OUTDOORS: For treatment of localized infestations of these insects in outdoor areas where there is no vegetation. Spray infested areas thoroughly. For ants, spray hills and runways. Repeat application as needed.

ACTIVE INGREDIENTS

*O-diethyl O-(2-isopropyl-4-methyl-6-pyrimidinyl) phosphorothioate	0.50%
**Technical piperonyl butoxide	0.20%
Pyrethrins	0.04%
Petroleum distillate	74.26%

INERT INGREDIENT

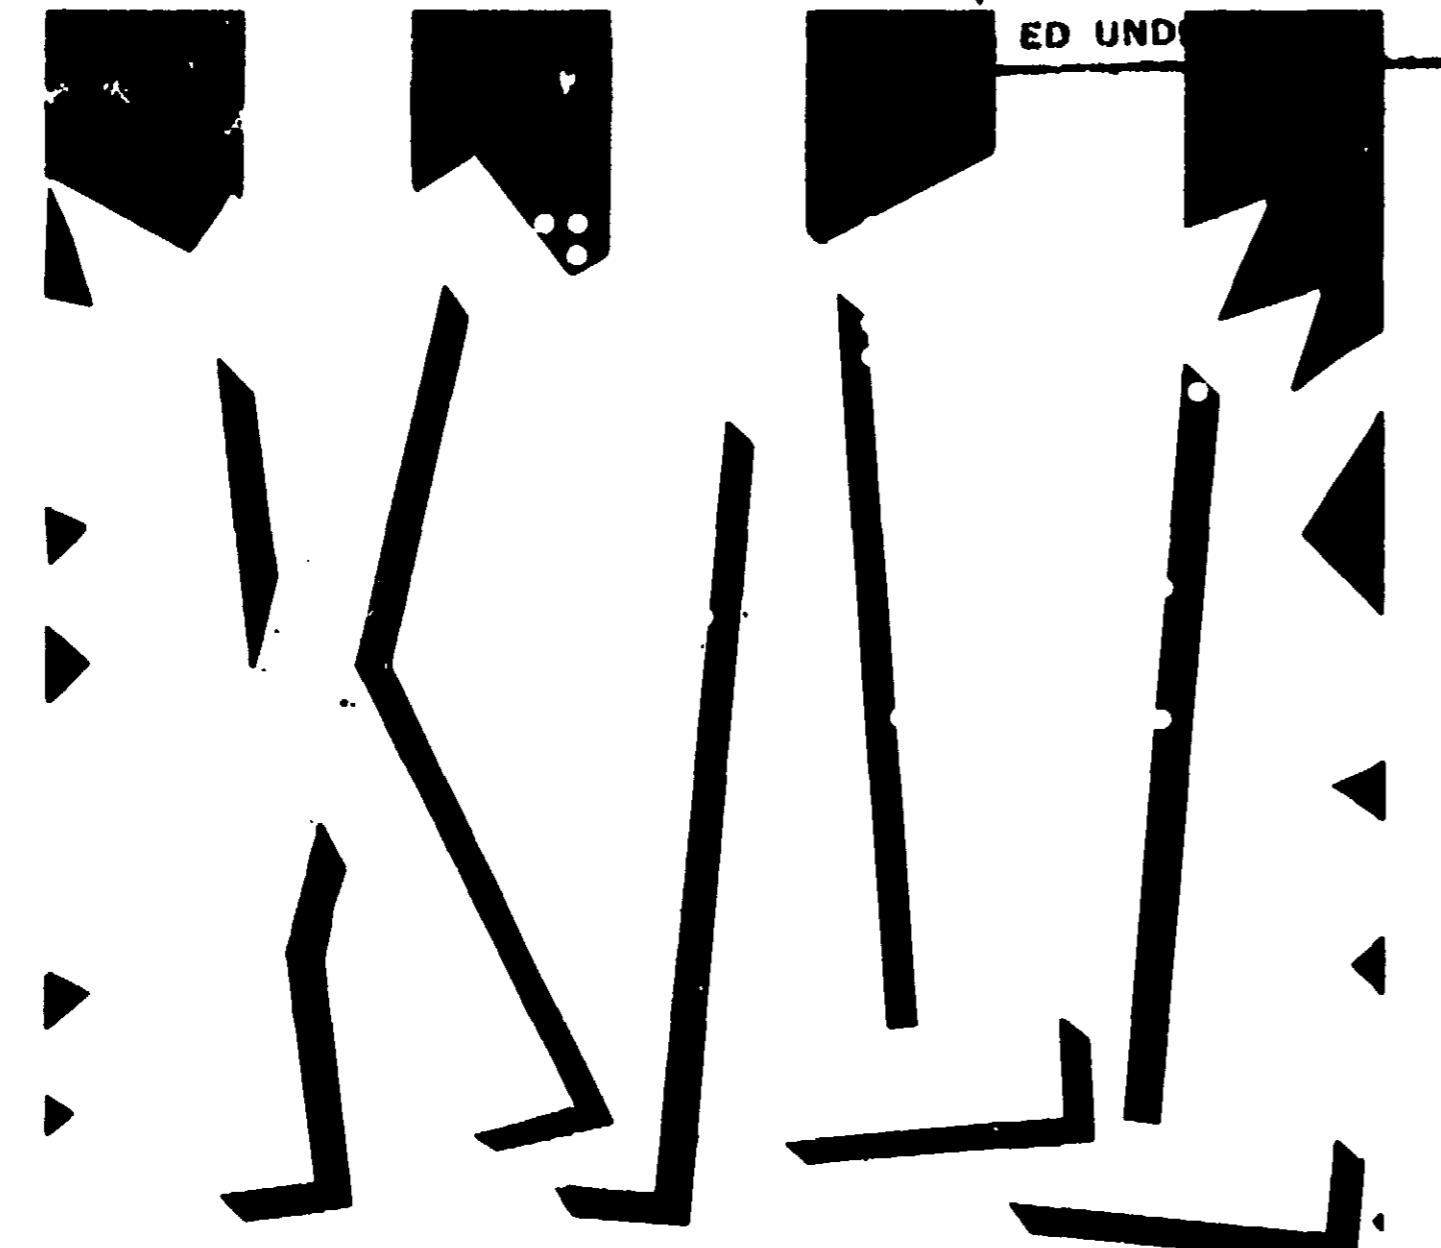

Propellant (dichlorodifluoromethane)	25.00%
*Otherwise known as Diazinon	100.00%
**Equivalent to 0.16% (butylcarbityl) (6-propylpiperonyl) ether and 0.04% related compounds
