

IMPORTANT NOTICE - This rodenticide contains as its active ingredient an anticoagulant chemical that interferes with the clotting ability of the blood. Upon repeated feedings, it causes fatal hemorrhage in rats and mice.

GENERAL DIRECTIONS - Empty pouch contents into a bait station or bait box. Do not use in areas where children, pets, or domestic animals are present. Do not use in areas where drinking water is available. Do not use in areas where food is stored. Do not use in areas where food is prepared or served. Do not use in areas where food is consumed. Do not use in areas where food is stored in bulk. Do not use in areas where food is stored in small quantities. Do not use in areas where food is stored in bulk.

Do not use in areas where food is stored in bulk. Do not use in areas where food is stored in small quantities. Do not use in areas where food is stored in bulk. Do not use in areas where food is stored in small quantities. Do not use in areas where food is stored in bulk. Do not use in areas where food is stored in small quantities. Do not use in areas where food is stored in bulk.

Colonial 32

KILLS RATS and MICE

ACTIVE INGREDIENTS:
Diphacinone 3.00% 1025%

INERT INGREDIENTS 97.50%

COLONIAL PRODUCTS, INC.
1830 - 10th AVE. No. LAKE WORTH, FLA.

CAUTION - This product should be placed in bait stations accessible to children, pets, wildlife and domestic animals in tamper proof bait boxes. Do not reuse empty container. Destroy and discard container in safe place when empty. If Colonial-32 is swallowed by humans, pets, wildlife or domestic animals, the material may reduce the clotting ability of the blood and cause bleeding. In such cases call your physician immediately. Intravenous administration of Vitamin K combined with appropriate supportive therapy in the case of acute poisoning is highly effective. Do not use if hydroxycoumatin is present.

CAUTION: KEEP OUT OF REACH OF CHILDREN
SEE REVERSE SIDE FOR ADDITIONAL PRECAUTIONS
